VI. REGULAR BUSINESS

A. Presentations from Outside Agencies

1. Annual Update from Outside Funding Partner: South Central Colorado Seniors

The representatives to present this update were not present at the meeting and their update will be rescheduled to a later date.

B. Business Brought Forward by City Staff

1. Development Services

a. Quarterly Update on Housing and Downtown

Development Services Director Rachel James provided the quarterly update on Housing and Downtown to Council.

b. Motion approving the San Luis Valley Habitat for Humanity Contract for Services

Ms. James presented information to Council.

Councilor Carson moved, seconded by Councilor Hensley, to approve the San Luis Valley Habitat for Humanity Contract for Services for \$5,427. The motion carried unanimously with Councilor Jan Vigil abstaining from the vote as he serves on that board.

2. Police

a. First Reading, Ordinance No. 5-2024, shortening the cure and notice provisions for nuisance properties owned or controlled by resident owners creating the nuisance.

Counselor Schwiesow provided background information to Council.

Councilor Jan Vigil moved, seconded by Councilor Hensley, to approve Ordinance No. 5-2024 on first reading and set for a public hearing on Wednesday, April 3, 2024 at 7:00 p.m. or as soon thereafter as the matter may be heard. The motion carried unanimously.

3. City Manager/Legal

a. First Reading, Ordinance No. 6-2024, an ordinance amending The Code Of Ordinances Of The City Of Alamosa to Include a new Chapter 17 titled "Guidelines and Regulations for Water Projects for Export Outside The San Luis Valley as Designated as Matters of State Interest of the City of Alamosa"

Counselor Schwiesow provided background information on this ordinance to Council.

Councilor Carson moved, seconded by Councilor Jan Vigil, to approve Ordinance No. 6-2024 on first reading and set for a public hearing on Wednesday, April 17, 2024 at 7:00 p.m. or as soon thereafter as the matter may be heard. The motion carried unanimously.

C. Committee Reports

Councilor Hensley reported on the Marketing Board and Main Street Advisory Committee meetings she attended.

Councilor Dominguez reported on the Alamosa Housing Authority Board meeting he attended.

Councilor Jackie Vigil reported on the LEAD Policy Committee meeting she attended.

D. Staff Announcements

Counselor Schwiesow informed Council of an update on the city's augmentation cases and that they are set for trial in October of 2026 and he has engaged litigation counsel to help with the cases.

Public Works Director Harry Reynolds provided an update on the construction of La Veta Avenue and informed Council that they'll be heading to Washington Avenue next.

COUNCIL COMMENT

Councilor Jan Vigil extended congratulations to new Police George Dingfelder.

Councilor Krebs commented in regards to the Adopt a Park/Trail meeting that she attended and encouraged people to look into the program.

Councilor Carson thanked the staff and committee for the process of hiring a Police Chief and also extended his
congratulations. He also thanked the Police Department for being there for his family this week related to a
personal matter.

Mayor Coleman thanked the City Manager and team for taking time on the process of hiring a new police chief.

Ty Coleman, Mayor

The meeting adjourned at 7:39 p.m.	

ADJOURNMENT

Holly C. Martinez, City Clerk

Council Calendar

6:00 PM - Work Session: Discussion on perception of crime and if new City ordinances are needed

I. CALL TO ORDER AND PLEDGE OF ALLEGIANCE

The Regular Meeting of the Alamosa City Council was called to order on the above date by Mayor Ty Coleman at 7:00 p.m. The Pledge of Allegiance was recited.

II. ROLL CALL

Present at Roll Call: Mayor Ty Coleman, Councilors Liz Hensley, Michael Carson, Jamie Dominguez, Jackie Vigil, and Dawn Krebs. Councilor Jan Vigil previously requested to be excused and his absence is an excused absence. Also present: City Manager Heather Brooks, City Attorney Erich Schwiesow, and City Clerk Holly Martinez.

III. AGENDA APPROVAL

Councilor Hensley moved, seconded by Councilor Carson, to approve the agenda as presented and to excuse Councilor Jan Vigil. The motion carried unanimously.

IV. CITIZEN COMMENT

Alamosa City Council welcomes your comments. Citizens wishing to speak may obtain and complete a speaker card through the City Clerk at the start of the meeting.

A. Audience Comments

None.

B. Follow-Up

None.

V. CONSENT CALENDAR A

The Consent Calendar allows multiple actions with one motion. Consent Calendar A contains routine items which have been recommended for action by staff or advisory boards. Council may remove a consent calendar item for separate consideration.

Councilor Krebs moved, seconded by Councilor Hensley, to approve Consent Calendar A. The motion carried unanimously.

C.7.a. Approve Minutes of Meeting February 21, 2024

VI. REGULAR BUSINESS

A. Presentations from Outside Agencies

1. Annual Update from Outside Funding Partner: Habitat for Humanity

Audrey Liu and Trudy Chavez provided the annual update on the projects Habitat for Humanity has worked on this past year.

2. USA Today's Best Small Town Cultural Scene

Beth Sumner and Kale Mortensen with Visit Alamosa presented information on the USA Today's Best Small Town Cultural Scene that Alamosa is being nominated for.

B. Board/Commission Business

1. Library Board Annual Report

Library Board Chair Will Krebs provided the annual report for the Library Board to Council.

C. Business Brought Forward by City Staff

1. Development Services

a. Various Water Updates

Deacon Aspinwall and Beata Ramza with Development Services provided information to Council on the annual water usage and the WaterSmarts Committee.

2. Police

a. Motion authorizing the purchase of 30 Axon Fleet 3 in-car camera systems for \$420,703.06 to be paid over 5 years.

Interim IT Director Brandon Gallegos provided information to Council on the Axon Fleet 3 in-car camera systems to Council. Interim Chief Joey Spangler and Ms. Brooks also provided additional information.

Councilor Carson moved, seconded by Councilor Jackie Vigil, to authorize the purchase of 30 Axon Fleet 3 in-car camera systems with the inclusion of the Technology Assurance Plan for \$420,703.06 to be paid over 5 years. The motion carried unanimously.

3. City Manager/Legal

a. Second Reading and Public Hearing, Ordinance No. 3-2024, an ordinance approving an intergovernmental agreement with Water Activity Enterprise Special Improvement District No. 6 of the Rio Grande Water Conservation District to cover the City's municipal wells in the district's annual replacement plan(s) pending approval of the City's plan for augmentation

Counselor Schwiesow reviewed this ordinance with Council.

Mayor Coleman opened the public hearing at 8:09 p.m. and asked for those wishing to speak on this ordinance.

There being no one wishing to speak, the hearing closed at 8:10 p.m.

Councilor Carson moved, seconded by Councilor Jackie Vigil, to finally adopt Ordinance No. 3-2024. The motion carried unanimously.

b. Selection of Art for Purchase

Ms. Brooks reviewed the art pieces and budget amount for Council for 2024. Council discussed the pieces and decided to purchase Casey Caterpillar. Councilor Hensley stated that Aaron with the Boys and Girls Club would help to purchase this item as well. Councilor Dominguez stated that Shooting Stars would cover the remaining balance of whatever the Boys and Girls Club and the City couldn't for the purchase of Casey Caterpillar.

Councilor Jackie Vigil moved, seconded by Councilor Hensley, to purchase Casey Caterpillar with the budget funds of \$5,450. The motion carried unanimously.

D. Committee Reports

Councilor Dominguez reported on the Homeless Coalition meeting he attended.

Councilor Carson reported on the Rio Grande Basin Roundtable meeting he attended.

E. Staff Announcements

Public Works Director Harry Reynolds provided an update on the street construction for La Veta, an update for the houses on Princess Ann, and an update of the date for the removal of the huts at the St. Benedict campsite.

Ms. Martinez informed Council that the current agenda management software the City uses will be coming to an end of life per the company that owns it; and that the City Manager,

Interim IT Director, and herself are researching other software and will be issuing an RFP to generate interest for a new agenda management software.

COUNCIL COMMENT

ADJOURNMENT

Councilor Carson commented in regards to the property on Edison Ave and the certificate of occupancy. Councilor Dominguez stated that he would like to be included on this discussion.

Mayor Coleman commented in regards to the Monterey Cafe.

The meeting adjourned at 8:34 p.m.

DATE March 5, 2024	AGENDA NO.C. 8. a	SUBJECT : IT Director Monthly Report for February 2024
Department Head:	media Conflyer	Report for February 2024
City Manager:		
PRESENTED BY: Brandon Ga	allegos	

Below is a statement regarding major issues covered by the City IT Department:

February 2024 Report

- Finished SAN Install
 - Completed the installation of the Storage Area Network (SAN)
 infrastructure, ensuring optimal storage and data management
 capabilities for the organization.
- Worked with Axon for a Quote on the Fleet 3 System
 - Collaborated with Axon to obtain a comprehensive quote for the implementation of the Fleet 3 system, enhancing fleet video capture capabilities.
- Work on Tyler Brazos Quote
 - Engaged in the procurement process with Tyler Brazos our e ticketing partner - to obtain a detailed quote for required IT services or solutions, ensuring alignment with organizational needs and budget constraints.
- Discuss Telecom Leases
 - Conducted discussions and assessments regarding telecom leases to optimize contracts, reduce costs, and enhance communication infrastructure. In specific we discussed the locations of telecom equipment

on City owned infrastructure.

Upgrade to VMware 8

 Successfully upgraded the virtualization infrastructure to VMware 8, ensuring improved performance, security, and scalability of virtualized environments.

Attended Broadband Meeting, Moving Forward Meeting

 Participated in the Broadband meeting and subsequent Moving Forward meeting, contributing insights and strategies for advancing broadband initiatives and infrastructure development.

Upgrade Firewall

 Implemented upgrades to the organization's firewall systems, enhancing network security and protection against cyber threats and unauthorized access.

Granicus Replacement Meetings

 Held meetings to discuss the replacement of the NovusAgenda software, exploring alternative solutions and planning for a seamless transition to new platforms for government communications and engagement.

Met with MDM Provider Mirador

Conducted a meeting with Mobile Device Management (MDM) provider
 Mirador to review system performance, address any issues, and explore opportunities for optimization.

Attended SOC Forum Webinar

 Participated in a Security Operations Center (SOC) Forum webinar, staying updated on the latest trends, best practices, and advancements in cybersecurity strategies and technologies.

Follow up with Apptegy for Rec Center Website

 Followed up with Apptegy regarding the development or maintenance of the Recreation Center website. Apptegy is a possible vendor for this project.

Discussed Website Options for Parks and Rec

 Engaged in discussions to explore various website options and strategies for the Parks and Recreation department, aiming to enhance online presence and user experience for community members.

- Open Fox Update Issues
 - Addressed and resolved any ongoing issues or concerns related to updates for the OpenFox (CCIC) software, ensuring uninterrupted performance and functionality.
- Installed Conferencing Bar for Harry
 - Installed a conferencing bar for Harry, enabling seamless video conferencing and collaboration capabilities to support remote work and meetings.
- Uninstalled Adlumin Software on the Network
 - Conducted the uninstallation of Adlumin software from the network, streamlining IT infrastructure and ensuring compliance with security policies and requirements.
- Updated Auction Site with Auction Vehicles
 - Updated the organization's auction site with information and listings for auction vehicles, facilitating transparent and efficient asset management and sales processes.
- Install PowerBI for Police
 - Implemented PowerBI for the Police department, enabling advanced data analytics and visualization capabilities to support informed decision-making and operational effectiveness.
- Patched all City-owned computers to the latest patch and vulnerability fixes from Microsoft. This monthly patching helps protect our computers from malicious software, resolve general Windows issues/bugs, and provide access to new Windows features.

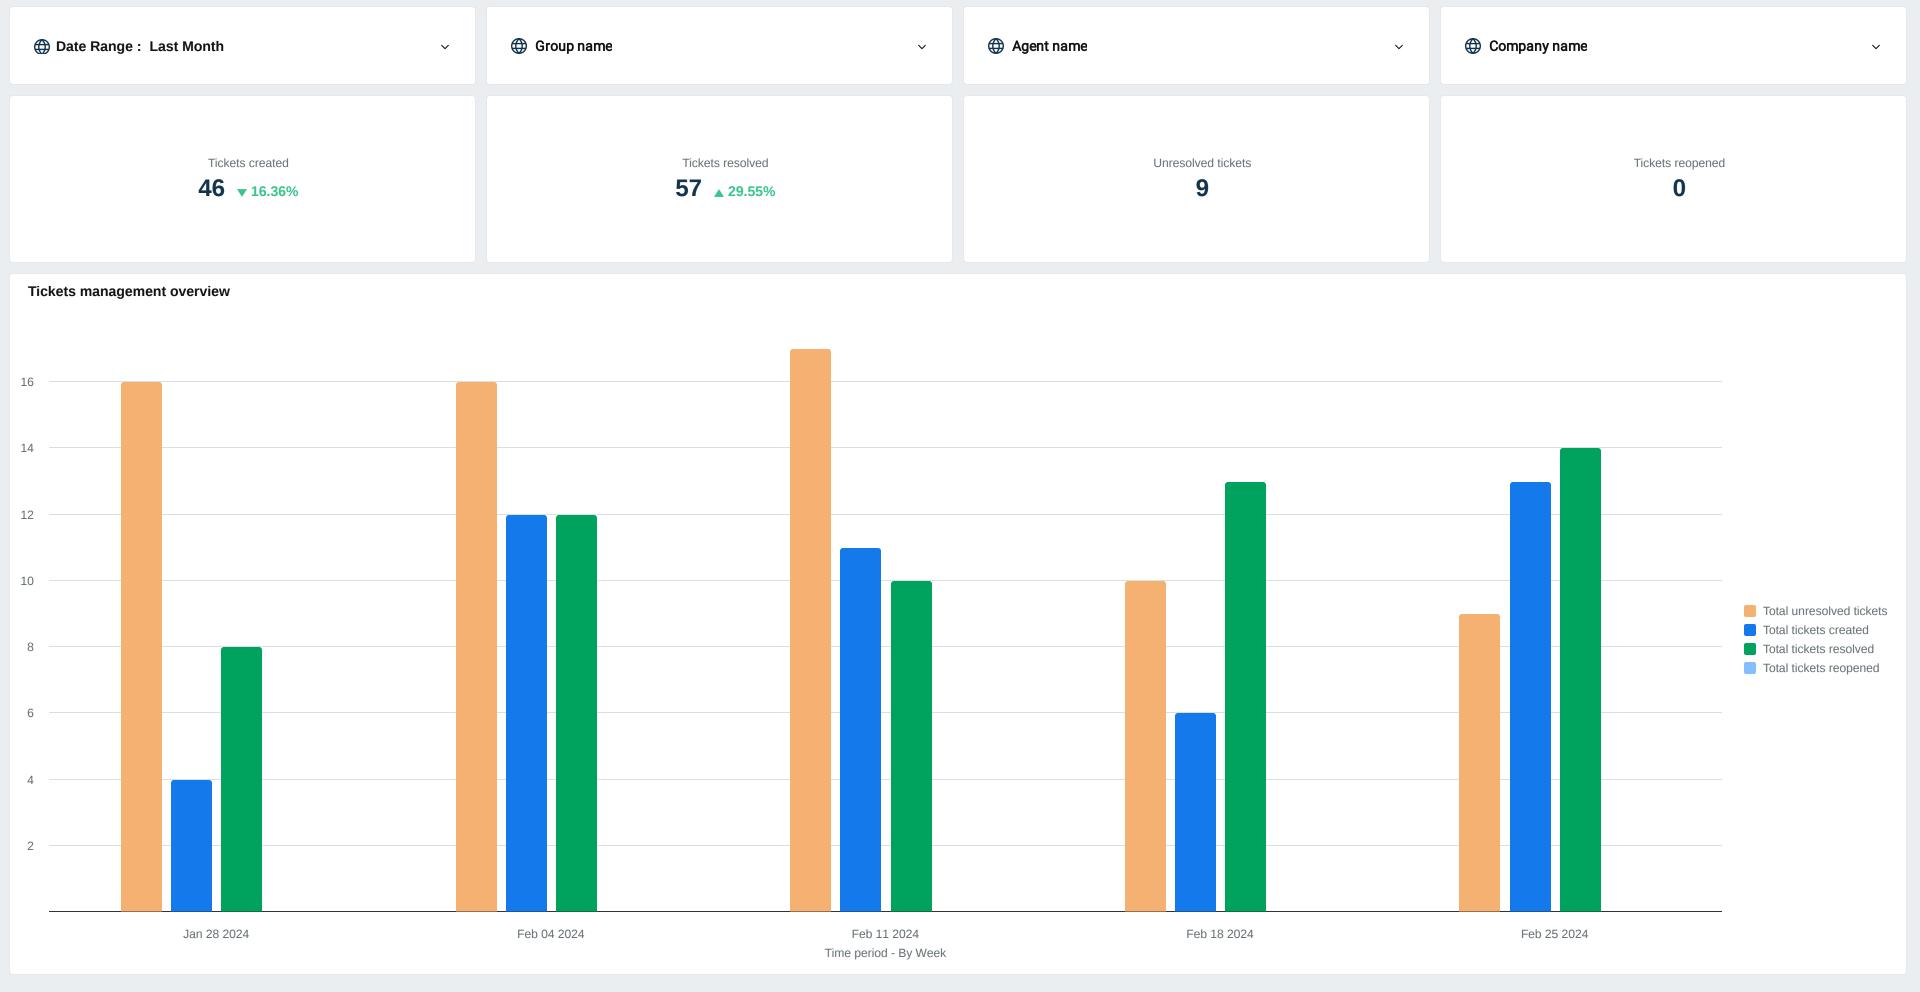

In Monte Vista, we performed the following items:

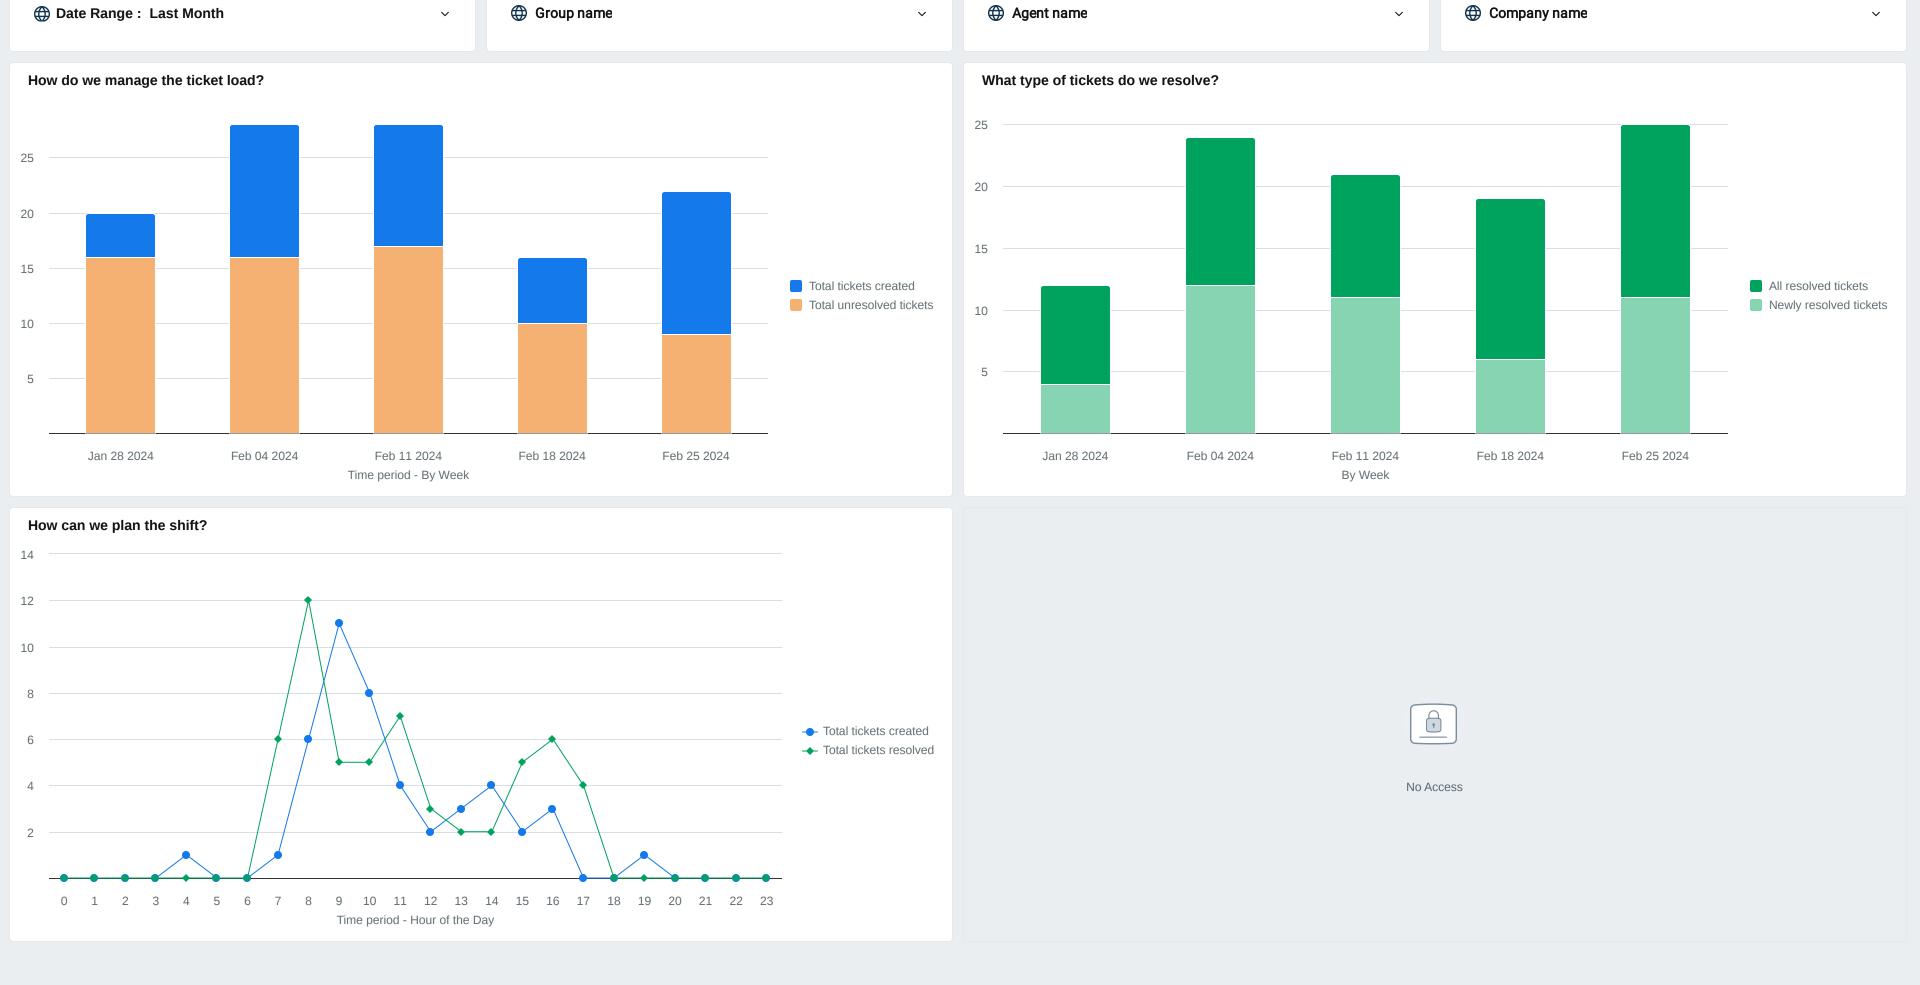

- Google Account clean up
- AG conference Support/Live stream
- New Surface charger
- Ordered parts for MDT
- Monitor replacement PD
- AP Mounted by clerks
- SkiHi TV issues fixed
- Court computer updated (Caselle)
- Unita's account rebuilt on court computer
- Printer issues fixed for Planning
- PDF auto open fixed PD
- Monitor replacement PD
- SkiHi Network changes (New SSID added, limiter removed, passwords changed)
- SkiHi Doors brought back online after network changes
- SkiHi wireless network started diagnostics
- Front AP mounted for public wifi City Hall
- Non-booting PC fixed Shops
- Mail PO Machine replaced
- Network lines ran for Plotter/Scanner room
- Patched all City-owned computers to the latest patch and vulnerability fixes from Microsoft. This monthly patching helps protect our computers from malicious software, resolve general Windows issues/bugs, and provide access to new Windows features.

Winter/Spring Hours

Monday - Thursday: 6am - 9pm

Friday: 6am - 6pm Saturday: 7am - 6pm Sunday: 12pm - 6pm

Summer/Fall Hours (May 1st - October 31st)

Monday - Thursday: 6am - 8pm

Friday: 6am - 6pm Saturday: 7am - 4pm Sunday: CLOSED

Notice of Recreation Center Shower Renovation:

We would like to inform you that our shower facilities will undergo renovation in the near future to enhance your overall expeience at our facility. During this renovation period, public showers will NOT be available for use. We apologize for any inconvenience this may cause and appreciate your understanding as we work to improve our amenities.

Once we have confirmed the exact dates for the renovation, we will promptly make this information available to the public. This will allow you to plan your visits accordingly and make alternative arrangements for showering if needed.

We understand the importance of shower facilities for your comfort and hygiene, and we assure you that we are working diligently to complete the renovation as quickly as possible. Our goal is to provide you with upgraded and modernized showers that meet the highest standards of cleanliness and functionality.

Thank you for your patience and cooperation during this renovation period. If you have any questions or concerns, please don't hesitate to reach out to our staff for assistance.

OPEN GYM

Open gym sessions provide valuable opportunities for individuals to engage in recreational activities such as basketball and volleyball. To ensure fairness and accommodate various interests, specific guidelines are established for each court. Basketball activities are designated for the West Court, while volleyball activities are allocated to the East Court.

General Open Gym Usage:

Availability and Scheduling: Open gym sessions are scheduled at specific times, with the West Court dedicated to basketball and the East Court to volleyball. These schedules are typically posted in advance, allowing users to plan their activities accordingly.

Entry and Sign-In: Participants are required to sign in upon arrival, providing necessary information. This helps track attendance and ensures accountability.

Equipment Usage: Users are expected to handle equipment responsibly, including basketballs and volleyballs. Proper care should be taken to prevent damage to the gear and the facility.

Behavioral Expectations: Respectful behavior towards fellow users and facility staff is essential. Users should adhere to posted codes of conduct and maintain cleanliness and safety throughout the facility.

Specific Guidelines for Basketball and Volleyball Courts:

Shared Usage: While the West Court is designated for basketball and the East Court for volleyball, users on both courts can utilize shared spaces when necessary. For instance, basketball users may use the hoops on the East Court when the volleyball net is not in use.

Priority Use: Certain times may prioritize specific activities. However, users on both courts should be mindful of potential overlaps and cooperate accordingly.

Transition Protocol: Once volleyball players arrive and prepare to use the East Court, basketball activities must relocate to the West Court exclusively. This transition should be prompt and orderly, with basketball players vacating the East Court to accommodate volleyball play.

Respect for Court Allocation: Basketball users should refrain from using the East Court once volleyball players are present. This ensures that volleyball activities proceed without disruption and maintains a fair and organized allocation of court space.

Adult Oil Painting

2024's 1st Session

January 11th - February 29th (Studio Session)
9am-12pm; Every Thursday

Please visit <u>www.alamosarec.com</u>, or contact the Recreation Center at (719) 589-2105. Students bring their own supplies and meet at the Alamosa Family Recreation Center.

Fee: \$100 for the entire session. | \$15 - Daily Drop-ins Beginners are welcome.

For material information please contact Coni.

Details & Registration: Contact the Alamosa Family Recreation Center Other Questions? - Contact Coni Grant through her website at

www.ConiGrant.com

Next Session

March 7th - April 25th Thursday Mornings | 9am - 12pm Cost: \$100

Registration OPEN NOW!

Adult/Junior Ceramics

Adult ceramics: Feb 5th - March 11th

Cost \$80/Full Session | \$15 Drop-in

Junior Ceramics: Feb 8th - March 7th

Cost: \$50/Full Session | \$15 Drop-In

Register online or in person TODAY!

Next Session

March 25th - April 17th Mon & Wed.

The last two weeks of class will be Monday, Tuesday, & Wednesday.

Cost: \$80/Session | \$15 Drop-In

Cattails Golf Course February 2024 Report

Opening Day

We had a great opening day on Friday, March 1st. We had 128 rounds played on a 9 hole course since the back 9 is still closed. The course wintered well. The course was in great shape for this time of year.

Maintenance

- Our crew is starting to clean up debris from the winter. There is a large amount of sticks and branches that need to be cleaned up to make the course playable.
- All the golf carts and mowers have been serviced and are now ready for the season.
- The new computer for the irrigation system will be installed in the middle of March. Staff will receive training on how the new system works.
- The new maintenance technician started work on March 5th. He will be a big help with having another full time skilled worker.

We are off to a great start. Below are revenue and expenses through March 3rd.

Year To Date as of 3/3/2024 Revenue

	<u>Fiscal</u>	<u>Budget</u>
Golf Passes	\$4,000	\$25,000
Golf Tournament Revenue	\$0	\$40,000
Golf Memberships	\$66,387.50	\$200,000
Golf Green Fees	\$2,177	\$90,000
Golf Cart Fees	\$613.69	\$60,000
Golf Merchandise Sales	\$8,616.35	\$120,000
Golf Range Fees	\$88.54	\$12,000
Golf Facility Rental	\$433.84	\$3,000
Golf Liquor/Beverage Sales	\$0	\$500
Golf Cart Shed Rental	\$21,900	\$49,000
Golf Handicap Fees	\$0	\$1000
Golf Miscellaneous	\$-1,857.49	\$2,000
Total	\$102,359.43	\$602,500

Year to Date as of 3/3/2024 Expenses

	<u>Fiscal</u>	Budget
Full Time Salaries Clubhouse	\$13,537.75	\$74,711
Part Time Salaries Clubhouse	\$359.48	\$80,562
Full Time Salaries Grounds	\$24,958.07	\$170,529
Part Time Salaries Grounds	\$0	\$32,979
Full Time Overtime	\$0	\$3,420
PERA/ICMA	\$5,473.79	\$53,461
Medicare	\$537.02	\$5,252
Workmans Comp	\$0	\$3,500
Medical/Dental	\$4,819.68	\$39,272

Tournament Expenses	\$0	\$25,000
Transfer Out	\$0	\$5,479.76
Total	\$113,876.79	\$742,343.76

Library Manager Report – February 2024

Our scheduled artist for Tween Night had car trouble, but the tweens enjoyed our Cubelets.

Highlights

- Youth Librarian Holly van Hoy was named Woman of the Year by the Women's Citizenship Club.
- Interlibrary loan requests have increased dramatically, and in February we
 experienced an all-time high of ILL's processed 2,485 items coming in and
 going out! This is a big part of why our circulation is growing. A huge thank you to
 Cathy Zverev, who coordinates all this, plus Denise Gomez, Judith Boyd, Rose
 Strand and Melissa Martinson who have really stepped up to help.
- Volunteer hours hit a 6-month high with **117 hours** recorded! Our Teen Advisory Board was a huge part of this, as they planned and delivered a very successful event Valentine's in the Valley.

By the Numbers

Compared to February 2023:

- Website views have increased 8%.
- For the first time in a while, computer use is higher than this month last year. Computer sessions **increased 9**%.
- Total circulation has increased 9%.
- Visits have increased 20%.
- Reference and computer questions have increased 22%.

- Libby checkouts have increased 31%.
- Use of Mango Languages has increased 36%.
- For the first time this year, Cloud Library circulation is lower than 2023 13% lower.

Partnerships and Outreach

Tierra Nueva

Staff visited Tierra Nueva three times with Candy Sushi, Pipecleaner Pals and Slime.

Attendance = 41 Books = 23

"Best day ever!" -Maria, at our Oobleck and Slime program

"This is radical." -An attendee at our Oobleck and Slime program, presumably not ironically.

Left: A Tierra Nueva attendee makes a Pipecleaner Pal.

Programs

Valentines in the Valley

The Teen Advisory Board developed and delivered this family event, which involved cookie decorating, card making, face painting and more. **40 people attended.**

VITA Tax Help

The Library hosted tax volunteers from VITA for two days in February. These volunteers helped **12 people** file their taxes for free, including one Spanish-speaking patron whose visit was facilitated by Maria Kramer.

Grown Up Spa Night

After our successful tween spa night, Dancing Badger returned to lead a workshop for adults. **4 people** attended.

Adult Book Club

This month saw the highest attendance at Book Club so far! The club read "Looking for Alaska".

Attendance = 12

Tween Nights

While staff had to pivot due an unexpected cancellation by our workshop leader, tweens still had fun playing with our Cubelets. We also had the highest D&D attendance so far!

Cubelets = 15 D&D = 18

Regular Youth Programs

Attendance = 252

Services

1-on-1 Tech Help Service

This month, staff fielded 4 technology help appointments.

One man, whom we helped access Microsoft Teams for a virtual interview, came back to inform staff that he had got the job! He told us that our help "meant so much to him" because he wouldn't have been able to complete the interview without our assistance.

Upside Down - Danielle Steel

[&]quot;I found the perfect book!" Young patron looking for graphic novels.

[&]quot;This is a beautiful library. Very organized." -Patron compliment. A big thank you to everyone who shelves, shifts, and organizes our materials, plus Amparo, for keeping the Library neat!

Miss Holly was recognized for her great work in the community.

Youth Services Report February 2024

SLV childcare providers play as hard as they work, using only their non -dominant hands to work together to create a paperchain at a special event to celebrate their contributions to the community, hosted by the Early Childhood Council of the SLV, the FREE program and Alamosa Public Library.

Storytime - To- Go Giveaway!

In 2023, APL was awarded a yearlong Growing Readers Together grant funded by the Colorado State Library. The grant supports libraries in Colorado as they strive to serve informal caregivers in their communities. One of the ways that APL allocated the funds was to create 24 Storytime-To-Go Kits to be distributed to those providing childcare for young children. Each kit, valued at over \$125 each, centered around one of six themes and included a variety of books, at least one Vox "talking" book, a quality educational toy or item to interact with and an additional activities guide. The opportunity to partner with Juanita Maestas at the Early Childhood Council (ECC) and the FREE program, who also s upport these caregivers with their funding, came in February of 2024. The Library and ECC planned an evening of icebreaker activities, dinner and Storytime -To-Go Kit giveaways for 24 lucky caregivers! Storytime -To-Go Kits are also available for checkout at the Library.

The "Counting" Storytime - To-Go Kit contains bilingual board books that encourage not only counting, but early literacy practices like singing and playing, too! The Pete the Cat Vox book reads the story aloud from a rechargeable embeddedaudio player. The Melissa & Doug numbered vehicles set invites open-ended play with opportunities for numeral recognition, color matching, sorting and stacking. Other kit themes at the giveaway were "Colors," "Farm," "Construction," "Music and Movement," and "Trains."

Valentines in the Valley

The Teen Advisory Board continues to show their commitment to spreading library joy! Some are able to volunteer during the weekdays to help change out book displays while others come for Storytime on Friday mornin gs to help out and interact with the little ones. Lyra F. even cleaned Ms. Holly's little fish tank in February! That's dedication to the library.

The group's idea to host a February event at the Library came to fruition as "Valentines in the Valley" on Saturday, February 10th. Members helped plan, decorate and prep materials in advance of the event, and over 40 people came to decorate cookies, create valentine cards, tie friendship bracelets and socialize. Face painting was a big hit! Major thanks are in order to these young people from across the SLV for contributing their time (a combined total of **90 youth volunteer hours in February**!) and talents to make their Library better and better!

(L) Edith and Kai practice face painting on each other to encourage participation. (M) AmeriCorps member Beck talks about cookie decoration with attendees. (R) A'maree helps patrons make tissue paper flowers.

These are some of the crew that made it happen!

ALAMOSA CITY COUNCIL COUNCIL COMMUNICATION

Subject/Title:

Ratification of Planning Commission Approval: Conversion of a Non-Conforming Light Industrial Telecommunications Use to a Conforming Use at 1405 Hunt Avenue

Recommended Action:

Staff recommends ratifying Planning Commission's unanimous approval with conditions to allow the use to operate as a conforming use with a xeric Class A bufferyard around the property.

Background:

The subject property is located at 1405 Hunt Avenue, otherwise known as Lots 15-16, Block K, Boyd School Subdivision, Assessor's Parcel Number 541310428009. The lot is ±9,600 square feet in area and is located in the Established Neighborhood (EN) zone. <u>See the attached location map</u>. The lot is currently improved with a ±408 square-foot building constructed in 1979 which houses communication equipment. A backup generator and some outdoor storage is also on-site. The use is classified as *Light Industry*. This property has two historic zoning/planning approvals: a zoning variance in 1955 for the installation of a television receiving antenna tower and accompanying building to house electronic and related equipment (55-01 ZBOA); a similar request for the installation of a disc antenna in 1978 (78-08).

The right to continue an existing non-conforming use and maintain it in reasonable repair is permitted, but it cannot be altered or extended under **Sec. 21-7-201** of Alamosa's Unified Development Code (UDC). The applicant wishes to replace the dilapidating structure with a ±324 square-foot concrete structure, thus requiring a conversion from a non-conforming use to a conforming use request pursuant to **Sec. 21-7-204**. An example of the proposed structure is shown in the applicant's request narrative. <u>See the applicant's site plan, full request narrative, and other documents, attached.</u> Pictures of the site are attached.

The completed and sufficient Land Use Application was delivered to the Development Services Department on 1/31/2024. Posting requirements have been met pursuant to **Table 21-8-511**.

Under the standards of **Sec. 21-7-204**, any non-conforming use may be converted into a conforming use by meeting the approval criteria for a Conditional Use Permit (CUP) - specifically plan implementation, compatibility, and community need. Further requirements state that the non-conforming use should have minimal nonconformities and have been integrated into the function of its surrounding neighborhood or zone. Additional standards for conversion are found in **Sec. 21-7-204(c) Conversion by Conditional Use Approval**. The findings of applicability and satisfaction of these standards are found in the attached staff report to Planning Commission.

Issue Before the Council:

Does Council wish to ratify Planning Commission's approval by consent?

Alternatives:

(Recommended action) Staff recommends the ratification of Planning Commission's approval with conditions by consent.

Council may remove the item from consent agenda by a majority vote, and ask questions of the Code Administrator, then decide to ratify the decision or place the matter on the next available council agenda for public hearing.

Fiscal Impact:

There is no fiscal impact involved with this decision.

Legal Opinion:

The City Attorney will be present for any legal questions that may arise.

Conclusion:

The use has been established since at least 1978, and functioned in a similar use since 1955. Ratification of this approval allows the dilapidated structure to be replaced and the site to be upgraded while requiring some aesthetic improvements.

Memo

To: Planning Commission Members

From: Deacon Aspinwall, Planning and Development Specialist

Subject: Request to Convert a Non-Conforming Light Industrial Telecommunications Use to a Conforming

Use

Date: 7 March 2024

BACKGROUND

The subject property is located at 1405 Hunt Avenue, otherwise known as Lots 15-16, Block K, Boyd School Sub, Assessor's Parcel Number 541310428009. The lot is ±9,600 square feet in area and is located in the Established Neighborhood (EN) zone. *See the attached location map*. The lot is currently improved with a ±408 square-foot building constructed in 1979 which houses communication equipment. A backup generator and some outdoor storage is also on-site. The use is classified as *Light Industry*. This property has two historic zoning/planning approvals: a zoning variance in 1955 for the installation of a television receiving antenna tower and accompanying building to house electronic and related equipment (55-01 ZBOA); a similar request for the installation of a disc antenna in 1978 (78-08).

The right to continue an existing non-conforming use and maintain it in reasonable repair is permitted, but it cannot be altered or extended under **Sec. 21-7-201** of Alamosa's Unified Development Code (UDC). The applicant wishes to replace the dilapidating structure with a ±324 square-foot concrete structure, thus requiring a conversion from a non-conforming use to a conforming use request pursuant to **Sec. 21-7-204**. An example of the proposed structure is shown in the applicant's request narrative. <u>See the applicant's site plan, full request narrative, and other documents, attached.</u> Pictures of the site are attached.

The completed and sufficient Land Use Application was delivered to the Development Services Department on 1/31/2023. Posting requirements have been met pursuant to **Table 21-8-511**. Note that unlike variances, this process only requires the property to be posted.

ANALYSIS AND IMPACT

Under the standards of **Sec. 21-7-204**, any non-conforming use may be converted into a conforming use by meeting the approval criteria for a Conditional Use Permit (CUP) - specifically plan implementation, compatibility, and community need. Further requirements state that the non-conforming use should have minimal nonconformities and has been integrated into the function of its surrounding neighborhood or zone. In relation to these criteria, staff makes the following findings. Italicized texts are the quoted standards.

Sec. 21-2-302. - General Standards for All Conditional Uses

(b) *Plan Implementation*. Retaining this site is in direct accordance with <u>GOAL ED.2 RETAIN EXISTING</u> <u>BUSINESSES ACROSS ALL SECTORS AND HELP THEM ADAPT AND EXPAND- Strategy K:</u> "Continue to work in partnership with telecommunications companies and organizations to improve internet and cellular phone infrastructure." (Page 31).

- (c) *Compatibility.* These three criteria are the most difficult to achieve through this process of non-conforming conversion.
 - (1) Will be compatible with surrounding land uses. The surrounding land uses are residential uses and vacant property. The compatibility is evidenced by the fact that this use has been in place for over 50 years, and the scale of the existing and/or proposed structures are of a scale appropriate for a neighborhood.
 - (2) Is proposed for a location that is appropriate in terms of mitigating the impacts or risks of the use to the natural environment, or the environmental impacts or risks are mitigated through the design or the operation of the use. There are no known risks to the environment at this site.
 - (3) Will not materially detract from the character of the immediate area or negatively affect the anticipated development or redevelopment trajectory (for example, by creating a critical mass of similar conditional uses that is likely to discourage permitted uses by making the vicinity less desirable for them). Given that this site has been used for communication since 1955, and has been mostly been in its current state since 1979. There are no opportunities for similar approvals or development in either the developed or vacant properties. The detraction or potential detraction of the character of the surrounding area can be mitigated through this process by the use of bufferyards.
- (d) Community Need. Telecommunication infrastructure is critical to the functioning of our modern society.

Sec. 21-7-204(c) Conversion by Conditional Use Approval; Standards

- (2) The use has minimal nonconformities and has been integrated into the function of its surrounding neighborhood or zone, as evidenced by the following:
 - a. *Nearby city residents regularly patronize the use or are employed by the use (for nonresidential uses in or abutting residential neighborhoods).* Not applicable. This is an un-manned site.
 - b. Management practices eliminate nuisances such as:
 - *i.* Spillover of noise or light. Staff is unaware of any spillover light or noise. If such conditions are found to exist with respect to lighting, Planning Commission may choose to impose conditions to mitigate these nuisances.
 - *ii.* Odors and appearance of waste materials and litter. Staff is unaware of any odors. There is some clutter of material related to telecommunications. This should be mitigated by requiring screening and buffering.
 - iii. Unreasonably congested on-street parking. Not applicable. This is an un-manned site.
 - iv. Comparable conflicts with abutting and nearby properties. The property has operated as an industrial-communication use since 1955, and developed in its current state since 1978.
 Most of the adjacent residences were built more or less contemporaneous with the initial 1955. Barring any public testimony to the contrary, it stands to reason that any conflicts would be comparable throughout the history of the use.
 - c. There is no material history of complaints about the use (a history of complaints is justification for denying the conditional use permit, unless the conditions of the permit will eliminate the sources of the complaints). The code enforcement system, which tracks violations back to 2019, shows no evidence of code enforcement actions.

- d. If the use is nonresidential, it is licensed in accordance with the applicable ordinances of the city. The site operates under the general franchise agreement between Charter Communications and the City of Alamosa.
- e. The use has been maintained in good condition and its classification as a nonconforming use would be a disincentive for such maintenance. There is some site clutter, but it is overall in fair condition. The approval of the conversion to a conforming use would allow for the replacement of the existing ageing structure and enable Planning Commission to impose reasonable conditions to mitigate any potential adverse impacts.

RECOMMENDATION

The conversion of non-conforming to conforming use is one of the highest bars to overcome in the UDC. Unless public comment presents evidence contrary to staff's findings, staff recommends that Planning Commission **approve with conditions** the request for the conversion of the non-conforming to conforming use with the condition that the applicant be required to install a Class A buffer strip on the east side and those portions of the north side of the property not in conflict with the existing structures or underground utilities, as well as an at least 6-foot tall fence that incorporates privacy slats along the entire perimeter of the site. A visual example of the buffer strip is shown below. However, there is no water service at the site, thus all plantings must be xeric, and trees and shrubs may be difficult to establish. Since communication infrastructure is deemed critical, the Federal Communications Commission (FCC) will likely require the barbed wire to remain. If public testimony establishes other nuisances that can be reasonably resolved in this process, those also may be imposed at this time. Note, while Planning Commission issues the decision on this request, this decision is then ratified by City Council.

Sample findings and motion. Motions are provided for suggestion and as a template only, and are not required to be followed:

I find that the request to convert the existing light industrial telecommunications use at 1405 Hunt Avenue is substantially compliant with the standards outlined in **Sec. 21-7-204(c)**. Therefore, I move to **conditionally approve** the request with the requirement that the applicant installs a Class A buffer strip on the east side and those portions of the north side of the property not in conflict with the existing structures or underground utilities, as well as an at least 6-foot tall fence that incorporates privacy slats along the entire perimeter of the site.

ALTERNATIVES

The following is a non-exclusive list of actions that Planning Commission may take.

(Recommended action) Planning Commission may choose to approve with conditions the non-conforming conversion request. Staff suggests the applicant be required to install a Class A bufferyard on the east and north property boundaries (where feasible), as well as vision screening elements incorporated into a 6' tall fence.

Planning Condition may **approve** the request **with conditions** different than those suggested by staff to mitigate any potential adverse impacts. Such reasonable conditions may involve lighting or landscaping, for example.

Planning Condition may **approve** the request without any conditions, if it finds there are no adverse impacts needing to be mitigated.

Planning Commission may **deny** the request if it finds the request does not meet the standards for which a non-conforming use can be converted to a conforming use. If Planning Commission decides to deny the request, it must provide findings of fact outlining how the request does not meet those standards. The result of denial will allow the use to continue in reasonable repair, but it could not be altered or extended.

These decisions are all subject to ratification by City Council on March 20th.

RELEVANT CODE PROVISIONS:

Article VII. - Nonconformities

Sec. 21-7-101. - Purpose

- (a) **Generally.** The application of new regulations to existing development may create circumstances in which existing lot dimensions, density, intensity, land uses, buildings, structures, landscaping and buffering, lighting, parking areas, or signs do not strictly conform to the requirements of the new regulations. For existing lots or development (including uses, buildings, structures, and signs) that are "legally nonconforming," this Article sets out equitable rules for whether, when, and how the regulations of this UDC apply.
- (b) **Conversion of Nonconformities.** Generally, nonconforming uses, buildings, structures, and signs are not allowed to be enlarged, expanded, increased, nor be used as grounds for adding other structures or uses that are now prohibited in the same zone. This Article provides standards by which minor nonconforming uses can be made "conforming" through a public hearing process.
- (c) **Reduction of Nonconformities.** It is the policy of the City to encourage reinvestments in property that increase its value and utility and reduce its external impacts. Since bringing a developed parcel into full compliance with this UDC may involve substantial costs that may discourage reinvestment, Division 7-4, *Other Physical Nonconformities*, provides a set of thresholds for determining when new construction or modifications to development trigger a requirement for increasing conformity with the various requirements of this UDC.

Sec. 21-7-204. - Conversion of a Nonconforming Use to a Conforming Use

- (a) **Generally.** In many instances, nonconforming uses may be integral parts of the City's fabric, that is, its character and function, so their continuing existence promotes the City's policy of retaining existing businesses or protecting its character and neighborhoods. In these instances, the classification "nonconforming use" and resulting restriction on investment may not be what the community desires. As such, a nonconforming use may be made "conforming" pursuant to this Section in order to remove the potential stigma associated with the "nonconforming" designation.
- (b) **Limitation.** Unlawful uses may not be made conforming under this Section.
- (c) **Conversion by Conditional Use Approval; Standards.** A conditional use approval may be granted to make a nonconforming use "conforming," if:
 - (1) The criteria for approval of a conditional use set forth in Section 21-2-302, *General Standards for All Conditional Uses*, are met; and
 - (2) The use has minimal nonconformities and has been integrated into the function of its surrounding neighborhood or zone, as evidenced by the following:
 - a. Nearby City residents regularly patronize the use or are employed by the use (for nonresidential uses in or abutting residential neighborhoods).
 - b. Management practices eliminate nuisances such as:
 - i. Spillover of noise or light;
 - ii. Odors and appearance of waste materials and litter;
 - iii. Unreasonably congested on-street parking; or
 - iv. Comparable conflicts with abutting and nearby properties.
 - c. There is no material history of complaints about the use (a history of complaints is justification for denying the conditional use permit, unless the conditions of the permit will eliminate the sources of the complaints).
 - d. If the use is nonresidential, it is licensed in accordance with the applicable ordinances of the City.
 - e. The use has been maintained in good condition and its classification as a nonconforming use would be a disincentive for such maintenance.
- (d) **Conditions.** Conditions may be imposed relative to bufferyards, landscaping, or other site design provisions, or other limitations (including limitations on future expansion or operational characteristics) necessary to ensure that, as a conforming use, the use will not become a nuisance. Such conditions may relate to the lot, buildings, structures, lighting, landscaping, parking, drainage, or operations of the use.
- (e) **Effect of Approval.** Uses that comply with the terms of a conditional use approval that is issued in accordance with this Section are converted from "legally nonconforming uses" to "conforming uses" by virtue of the issuance of the conditional use permit, and subject to its terms. Conditional use approvals shall be provided to the Applicant in writing and may be recorded by the Applicant at the Applicant's expense.
- (f) **Effect of Denial.** If an application for conversion of a nonconforming use is denied, the use may thereafter continue as a nonconforming use.

Sec. 21-2-302. - General Standards for All Conditional Uses

- (a) **Generally.** All conditional uses shall meet the standards of this Section related to plan implementation, compatibility, and community need.
- (b) **Plan Implementation.** The proposed conditional use in its proposed location will not conflict with the implementation of current adopted plans of the City, including, but not limited to, the Comprehensive Plan;

- (c) **Compatibility.** The conditional use:
 - (1) Will be compatible with surrounding land uses;
 - (2) Is proposed for a location that is appropriate in terms of mitigating the impacts or risks of the use to the natural environment, or the environmental impacts or risks are mitigated through the design or the operation of the use; and
 - (3) Will not materially detract from the character of the immediate area or negatively affect the anticipated development or redevelopment trajectory (for example, by creating a critical mass of similar conditional uses that is likely to discourage permitted uses by making the vicinity less desirable for them).
- (d) **Community Need.** The conditional use, in the proposed location, will:
 - (1) Address a material need for the use in the community; or
 - (2) Create jobs that are likely to pay more than the median wages for the region, or support a critical mass of related and mutually supportive land uses that promote economic development and opportunity.

Sec. 21-5-306. - Bufferyard Landscaping

- (a) **Generally.** Bufferyard landscaping is required as set out in this Section, and as set out in this UDC for specific uses or situations.
- (b) **Applicability.** The standards of this Section apply to all required bufferyards.
- (c) **Bufferyard Classifications.** For the purposes of this UDC, there are five classifications of bufferyards, as set out in Table 21-5-306C, *Bufferyard Classifications*.

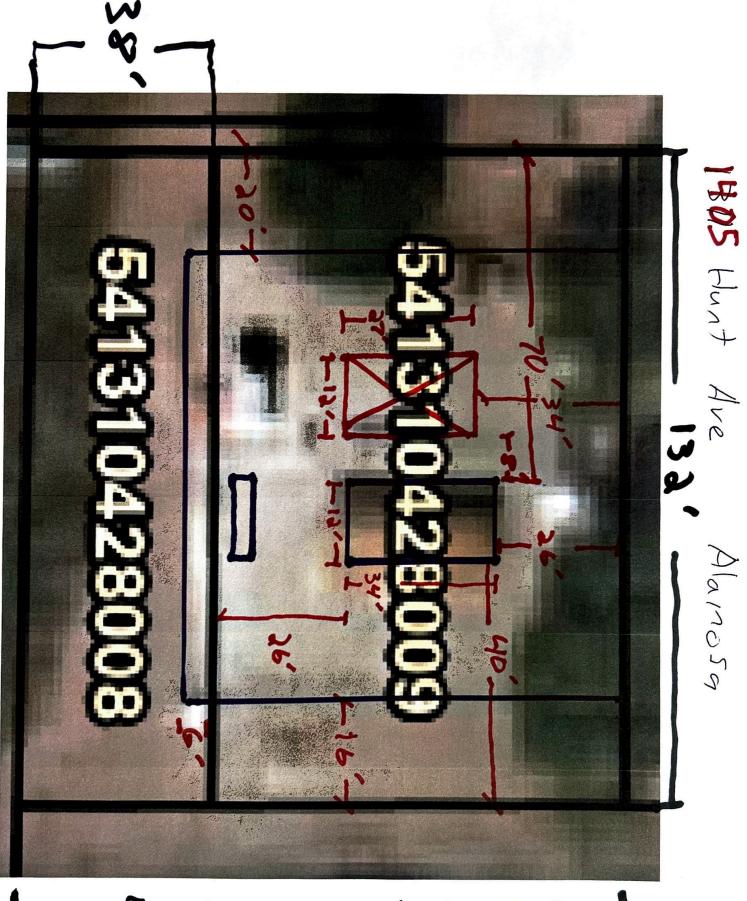

TABLE 21-5-306C BUFFERYARD CLASSIFICATIONS						
			Required Plantings pe	er 100 Linear Fee	t	
Bufferyard Classification	Width	Canopy Trees	Understory Trees	Evergreen Trees	Shrubs	Berm, Opaque Fence, or Wall ¹
Class A	5 ft.	1	1	1	10	Not required
Class B	10 ft.	2	1	1	20	Not required
Class C	25 ft.	2	2	4	30	6 ft. high
Class D	30 ft.	3	3	4	30	8 ft. high
Parking Bufferyard	5 ft.	0	0	0	40	3 ft. high allowed as alternative to shrubs ²

TABLE NOTE:

(d) **Parking Bufferyards.** Surface parking lots for multifamily and nonresidential land uses shall be buffered from adjoining streets and adjoining residential property. Unless another type of bufferyard is required along the same boundary of the subject property, the minimum bufferyard for this purpose shall be a Parking Bufferyard.

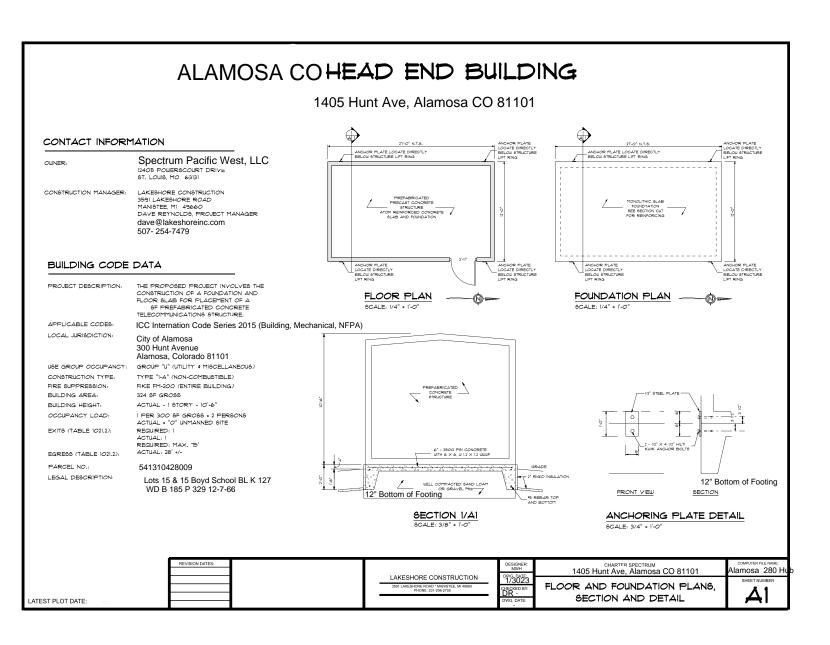

¹ If a fence or wall is used, all understory trees and shrubs, and not less than 50 percent of the canopy trees and evergreen trees shall be planted on the outside of the wall. If a berm is used, all shrubs shall be planted on the outside (or outside slope) of the berm.

² For nonresidential uses that are located within or adjacent to a residential zone, an opaque fence or wall that is not less than five nor more than six feet in height is required on all boundaries of the subject property that are shared with properties that are in a residential zone.

Project Narrative:

Site Address: 1405 Hunt Ave, Alamosa Co

Parcel#: 541310428009

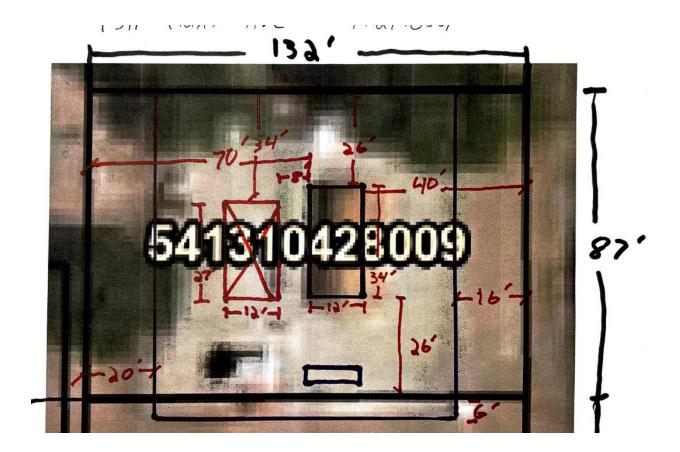

Current Use:

Spectrum Pacific West, LLC has used this building since at least 2000 with a building 12'x34' 408sf as a Communications Hub/Shelter for Phone, TV & Internet services. Also known as a Head End or Data Center. This provides communications services for the Alamosa area. There is a emergency back power generator onsite as well. Current site has 6' barbed wire security fencing which is recommended for communication sites. Currently is a legal non-conforming use.

Future Use:

Spectrum Pacific West, LLC plans to use the property for the same use in the future for internet, phone, TV & EAS Emergency Alert System. The current building is in poor condition and in need of replacement. They would like to install a new 12'x27' 280sf Concrete All weather/disaster protection communications Hub building that is 11'6"x27'x9' tall next to the existing building location as shown on the site plan. Once the new building is installed and services are migrated over to the new building we would demolish the existing building and clean up the site with fresh landscape rock on the city approved shrubs etc. etc. We will plan to install a new 6' tall black fence with privacy slats(screening) with barbed wire. We can also comply with a Class A Bufferyard requirements. There is no water service required for the owner use.

City of Alamosa

The "Hub" of The San Luis Valley

April 26, 1955

Minutes, Board of Zoning Adjustment, Alamosa, Colorado

Meeting called to order at 4:40 p.m. by Chairman Jay Maxwell.

Present were Board members Clyde Williams, T. D. L. Menke,

R. W. McAfee, Mrs. David Greenwald, Clerk of the Board Glynn Mills,

City Building inspector J. H. Flemmons, and the appellants

Dave Onstead and Larry Peay of Community Television systems

of Colorado, Inc.

The Board read both the notice of the meeting which appeared in the Daily Courier on Monday, April 25, 1955, and the Notice of Appeal and petition for variance submitted by the appellants, Community Television Systems of Colorado, Inc.

The Appellants requested a variance for the installation of a television head-end receiving antenna tower and accompanying building to house electronic and related equipment for their Cable TV signal system, in lots 15 and 16 of Block 127, Boyd School Addition, City of Alamosa, Colorado.

The Board, after hearing the request and reading sections 13 through 16 of the original master plan and zoning resolutions (subsequently adopted by ordinance), visited the site to see in person the land and buildings in the area.

After returning from the site, it was moved by McAfee, Seconded by Greenwald, that the appellants be granted the zoning variance to install television tower approximately 100 feet high in lots 15 and 16, Block 127, in accordance with their appeal and request. The Board further finds that the public convenience and welfare will be substantially served by allowing this variance, and further finds that such variance will not deteriorate the values of adjoining land or buildings in any way.

Meeting adjourned.

Glynn Mills Clerk of Board of Appeals

ALAMOSA CABLE T.V.

COMUNICO - SUBSIDIARY OF TCI

312 State - Phone 589-3221 ALAMOSA, COLORADO 81101

April 10,1978

City of Alamosa 425 4th Alamosa. CO 81101

Mr. Nichols,

Would you place Alamosa Cable TV on the next planning commission meeting agenda? We are interested in obtaining approval to install Cable TV equipment on company owned property. Property location is Boyd School Blk.127, lots 15 and 16- Hunt Ave. and 14th Street. affroned

Regards,

R.L. Armstrong mgr. Alamosa Cable TV

c.c. Art Lee Don Morris

NOTICE OF HEARING

Notice is hereby given that the Alamosa City Planning Commission will hold a public hearing in the Council Chambers at City Hall, Wednesday, May 24, 1978 at 8:00 p.m. upon the request of Cable T.V. who is requesting Planning Commission approval to install a disk antenna on Lots 15 and 16 in Block 127.

Further notice is hereby given that any and all persons of interest may appear at said hearing and be heard.

Earle B. Nichols City Engineer

PAGE 3 MINUTES, 4/26/78 PLANNING COMMISSION

INSTALLATION OF CABLE T.V. EQUIPMENT ON LOTS 15, & 16, BLOCK 127 Mr. Louie Armstrong, of Alamosa Cable TV, requested permission to install a disk antenna on Lots 15 and 16, Block 127. Mr. Armstrong stated this antenna would receive TV programs from New York via satellite and such programs would be available to Cable TV subscribers on the basis of an additional monthly fee. Commissioner Manchester moved, seconded by Commissioner Carter, to set a Public Hearing on this matter for 8:00 p.m., May 24, 1978. Motion was approved unanimously.

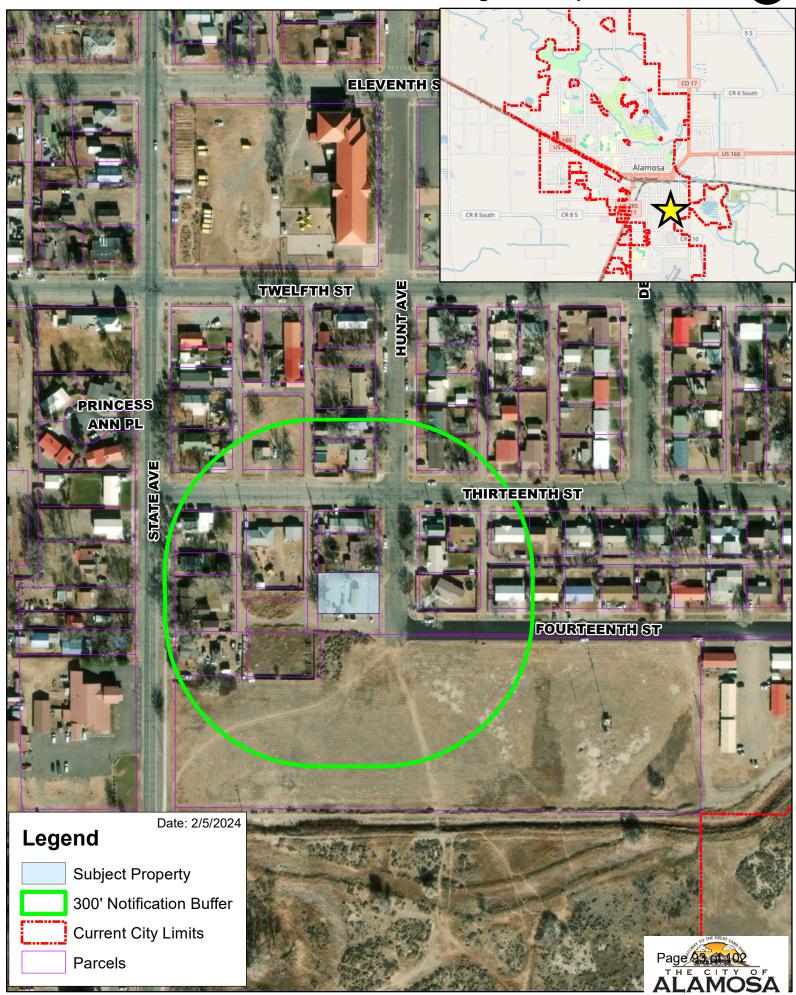

REQUEST FOR APPROVAL OF DAY CARE CENTER Shirley Maestas advised the Commission she wants to establish a day care center on Lot 12, Block 119. The center will accommodate twelve, two to five year old children. Ms. Maestas advised that she has already been licensed by the State to operate such a facility and she has already begun to clear and improve the property. A Public Hearing on this request was set for 8:15 p.m., May 24, 1978.

REVIEW OF PLAT FOR ROCK CREEK MEADOWS SUBDIVISION LOCATED WITHIN ALAMOSA COUNTY Commissioner Keller explained that the Alamosa County Planning Commission had requested the City of Alamosa to review the plat of a proposed subdivision located about $2\frac{1}{2}$ miles south of the City. Commissioner Archibald inquired as to what type of water and sewer facilities will be used to serve the property. Commissioner Keller stated the property owners propose to convert existing irrigation water rights on the property to domestic use and that individual wells will be used on the larger lots. Sewage disposal will be to septic tanks on individual lots. Chairman Sheridan stated he believed some of the area should be designated for recreational uses and Commissioner Carter agreed. The Commission instructed the secretary to send a letter to the Alamosa County Planning Commission stating that the Alamosa City Planning Commission has no objection to the proposed subdivision, but does recommend that the developer be required to provide an area for recreational purposes.

ADJOURNMENT Chairman Sheridan adjourned the meeting at 9:52 p.m.

Strategy B – The City of Alamosa plays a leadership role in economic development in the city.

Strategy C – Consider options for staffing an economic development position within the structure of the city government.

Strategy D - Establish a city funding strategy for economic development.

Strategy E – Improve city communications with economic development entities and local governments in the San Luis Valley and expand city participation in regional events and meetings.

Strategy F – More effectively promote the federal, state, regional and local incentives, funding tools and resources that are available to existing and prospective businesses.

Strategy G – Improve communications and coordination between the city and Alamosa County by working together on key projects such as improved air service, coordination on land use and infrastructure around the city, and economic growth initiatives and projects.

BUSINESS SUPPORT AND RETENTION

Although new businesses and industry are needed and desired, there is a tangible need to support businesses that already exist as they grow or face challenges staying in business. This is an area where coordination with local and regional economic organizations will provide local businesses with the support they need while playing to each organization's strengths and preventing duplication of efforts.

The San Luis Valley Small Business Development Center (SLV-SBDC) is part of the Colorado Small Business Development Center Network and offers services including one on one trainings and workshops for small business owners and entrepreneurs wishing to start or grow a business in the valley. There is a need to better position the SLV-SBDC and to strengthen the services that the center offers so that they can be offered more broadly and more people know about the services that are available. This may entail reorganizing the small business center. Some of the more successful small business development centers in rural Colorado have located at and been directly engaged with the local colleges or university.

In order to provide appropriate support, there must be an understanding of what specific types of assistance are needed. There are already a number of resources available to local businesses. Surveying local business owners will help narrow down where there are gaps, whether business owners are aware of current resources, and where the city can assist.

There are many jobs in healthcare, education and other professional sectors in Alamosa, yet employers find that recruiting professional employees is a challenge. When asked what the most significant economic challenges are for Alamosa, 23% of participants at the Community Vision Workshops identified the need for a trained and motivated workforce.

There are two higher education institutions in Alamosa, Adams State and Trinidad State Junior College, as well as the Alamosa Workforce Center and a number of government and non-profit partners that the city can work with to help address the need for a trained workforce. This includes developing specialized training programs, providing job skills development and linking employers with potential employees.

Trinidad State Junior College (TSJC) and Adams State University both have programs that train students for local jobs. TSJC offers a nursing program that supplies qualified nurses for the local healthcare industry. TSJC has also proven very accommodating to new industries coming to the area. When solar farm developers needed trained welders TJSC developed a welding program. Adams State provides a wide range of bachelor's degrees and recently expanded its masters programs to include a Master of Public Administration.

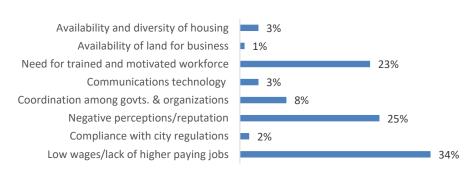

Figure 18. What are the most significant economic challenges for Alamosa? (top 2) - Community Vision Workshop

GOAL ED.2 - RETAIN EXISTING BUSINESSES ACROSS ALL SECTORS AND HELP THEM ADAPT AND EXPAND.

Strategy A – Strengthen the business retention and support services offered by existing business development and support organizations and/or reorganize the resources to provide more extensive services and to promote these services more broadly. Services would include:

- business plans
- financial forecasts
- feasibility analyses
- marketing strategy
- financing
- utilizing incentives

Strategy B – Support business-to-business networking and collaborative marketing.

- **Strategy C** Encourage and support business workshops, individual trainings and mentorships.
- **Strategy D** Strengthen access to funding for business expansion and training.
- **Strategy E** Communicate and promote business-support services to the business and entrepreneur community.
- **Strategy F** Survey businesses and visit them regularly to better understand the business base and identify resources needed to provide assistance for successful retention, expansion, creation and attraction of jobs.
- **Strategy G** Develop business incubator space where entrepreneurs can test ideas to start new businesses and existing businesses can develop new products.
- **Strategy H** Leverage the educational programs at Alamosa School District, Adams State University and Trinidad State Junior College to engage directly in local businesses.
- **Strategy I** Utilize the services of the Colorado Workforce Center to recruit employees and fill positions at local businesses and organizations.
- **Strategy J** Develop strategic partnerships between economic development entities and base industry sectors such as agriculture, healthcare and tourism.
- **Strategy K** Support and encourage professionals and entrepreneurs who work from home:
 - Continue to work in partnership with telecommunications companies and organizations to improve internet and cellular phone infrastructure.
 - Create a directory of freelance professionals, mobile workers and telecommuters and encourage networking among them.
 - Encourage the development of co-working facilities that include offices and conference room facilities that can be rented on an as-needed basis.

GOAL ED.3 – IMPROVE THE PROFESSIONALISM, KNOWLEDGE, AND ABILITIES OF THE LOCAL WORKFORCE.

- **Strategy A** –Develop workforce and entrepreneurial training programs that target specific workforce needs and promote these programs to businesses, entrepreneurs and public schools.
- **Strategy B** Work with economic development and education partners to establish education and training programs that align with job opportunities.
- **Strategy C** Increase adult education opportunities to expand adult literacy, provide primary and secondary education opportunities and career building.

ALAMOSA CITY COUNCIL COUNCIL COMMUNICATION

Subject/Title:

Motion Authorizing the Mayor to Execute a Property Ownership and Agency Affidavit, Allowing Manish Patel to Apply for a Variance on the Former Walsh Property

Recommended Action:

Staff recommends authorizing the Mayor to execute the document by consent.

Background:

As the developer for the proposed downtown hotel, Manish Patel, proceeds with his plans, he has found it prudent to apply for a variance for a reduction of the parking ratio as required by the City's Unified Development Code. Since he does not own the property, our codes require him to obtain permission from the property owner to make an application. It is fairly common that land use applicants do not own or control the property, as the outcome of the application may determine whether or not a property sale/transaction happens.

Authorizing the execution of this document does not implicate the City in Mr. Patel's development obligations or plans. It simply allows him to apply for a variance. Variances are heard and decided by Planning Commission acting as the Zoning Board of Adjustment. Variances do not go to City Council at any point in the application process. Authorizing the Mayor to execute the document does NOT approve the variance; it simply allows Mr. Patel to apply and go through the review process.

Given the 1) importance of the development to the city's economic development, and 2) the remote potential for an appearance of a conflict of interest in the variance request, since staff must prepare and issue a recommendation to Planning Commission, staff believes it is important to add a layer of separation between the applicant/application and the Development Services chain of command. Having the Mayor execute this document provides that additional layer of separation and checks and balances.

Issue Before the Council:

Does Council wish to authorize the Mayor to execute the property ownership and agency affidavit, allowing Manish Patel to apply for a variance on the former Walsh Property?

Alternatives:

(recommended option) Authorize the execution of the document by consent.

Remove the item from the consent agenda for further discussion (only takes one councilor), then make a decision to authorize or decline authorization of the affidavit.

Decline authorization and give staff further direction. Per the timelines in the development agreement and Mr. Patel's desire to begin construction, delays on this item could set the project back several months.

Fiscal Impact:

No fiscal impact is associated with the execution of this document.

Legal Opinion:

The City Attorney will be present for comment.

Conclusion:

This is a common situation in land use cases, but given the importance of the matter to the community, staff believes that authorization should come from Council.
