COUNCIL COMMUNICATION

DATE July 2, 2019	AGENDA NO.C. 8. a	SUBJECT: IT Director Monthly Report for June 2019
Department Head: 		
City Manager:		
PRESENTED BY: James A. Belknap		

Below is a statement regarding major issues covered by the City IT Department:

June 2019 Report

- June began with the first major project for the interns - a complete rewire of our central datacenter. Not only were cables replaced and color coded, but an entire new system was implemented. Network switching equipment was moved and grouped in a fashion to better suit the new system. Heat shielding equipment was installed and the whole datacenter was reorganized. This project would not have been possible without the tremendous efforts put forth by our interns Dustin and Bryanna.
- Early in June the Rio Grande saw some of the highest water flow rates in the last 30 years. IT used the City UAS (drone) to document peak water levels and its impact on the surrounding areas.
- IT completed yet another milestone project for the year with the installation of fiber to the Recycling Center and the Wastewater Treatment Facility. The extension of City fiber to these buildings reduces the strain on our legacy wireless backhaul system and massively increases network throughput to those

locations. In addition to a faster network connection, communications between the sites are now more secure and robust. Moving forward, this fiber installation is critical to some long term IT goals including the creation of a self-healing fiber ring, the creation of a hyper-secure SCADA network, and the sunsetting of the use of legacy wireless backhaul communications.

- IT has begun the replacement of our aging CM locks with new, wireless networking enabled NDE locks. Locks at the Water Treatment Plant and the Cemetery have been replaced. With the addition of a wireless AP (access point) in those locations, IT can now remotely control access and lock schedules.
- IT tested and deployed a wireless headset to the Public Works Department that fully integrates with the new phone system.
- IT worked with Valley Lock and Security to replace a downed camera at Fire Station 1.
- IT is now using PRTG as a network monitoring solution to better understand our networking needs. As part of the recent network expansions and equipment upgrades this type of monitoring is vital to maintaining what is now a medium sized enterprise network.
- IT worked with Jade Communications to upgrade and reconfigure the City's backend network connections. This upgrade was spurred by Jade's transition to a new upper layer provider. A network technician assisted IT in the deployment of network monitoring, configuration and log monitoring, and an upgrade on the technology that our networking equipment uses to communicate and be managed.
- Jade was able to use these upgrades to complete a VPN network connection to Fire Station 2 which allows us to once again reduce stress on our legacy backhaul system and better manage remote equipment. The VPN allows voice network traffic and supports place of our new phone system at that location.
- IT coordinated a meeting with SIPA and Judy from the Finance Department to review the costs saving of transitioning to the State supported financial transaction network. We currently see about \$800,000 in credit card transactions with a charge of 3.2%. The new system would charge 2.5%, accept more card types, allow for mobile transactions, and has built-in PCI compliance. An

estimated savings of \$7600 a year.

- IT is deploying Google Forms on the City website to handle reports and requests made by the public for various issues. A new menu item has been placed on the City website that directs the public to make a report on nuisances, potholes, code violations, etc. The forms are configured to forward that information to the proper department personnel.
- IT conducted an upgrade to the RecPro software used by the Parks and Rec Department to manage room bookings, memberships, and classes.
- IT identified networking equipment that was not performing to our standards and worked with Dell to provide a Return Merchandise Authorization. The replacement of the equipment involved a small network outage that was performed out of work hours to minimize impact to employees.
- An IT staff member attended the Mountain Connect Conference that each year focuses on broadband and communications technology. The knowledge gained at conferences like these are strong influencers in how our IT Department maintains pace with the current standards for technology, security, and service, as well as opportunities to work with vendors and other municipalities to identify actionable goals for the City.
- IT received equipment from Axon including bodycams, tasers, and accessories. This equipment will be used to review and compare/contrast with our current Digital Ally system.
- As part of the network upgrades, IT installed a new equipment rack at the Rec Center which will allow for more/upgraded equipment in the future.
- At the request of the Parks and Recreation Director, more cameras were added to the Ice Rink. The new cameras are compatible with the current system and only required the new cameras and an extended DVR.
- IT attended a meeting with Public Works staff at the Wastewater Treatment Facility to discuss the new HVAC system. A solution to allow monitored remote assistance with the HVAC system was discussed and implemented.
- As part of the knowledge brought back from Mountain Connect, IT purchased the domain cityofalamosa.com. Not only does that protect the City's intellectual property, but it reduces the security risk of a bad actor using that domain to

compromise our network security - either by phishing or website redirection. The domain now points to the official City website.

- On the Friday before the initial start date of the new Public Works Director, IT identified a hardware fault on the Directors computer. Quick action and some after hours work meant that the computer was fully operational before the personnel required it.
- Patched all City owned computers to the latest patch and vulnerability fixes from Microsoft. This monthly patching helps protect our computers from malicious software, resolve general windows issues/bugs, and provide access to new windows features.
- IT worked to install a redundant internet connection to our public internet service for the library and our public WIFI connections.

In Monte Vista, we performed the following items:

- IT worked with TimeClock Plus to initialize and deploy a time clock for the Public Works workers. This will eliminate some issues encountered when employees were using the App.
- IT used the City of Alamosa UAS (drone) to photograph the Rio Grande River where adjacent to City property and provided City Council with a copy of the video.
- IT secured a donation of two Tripplite server racks from the Jeffco 911 Command Center. One rack will be used for a City of Monte Vista project for the installation of a security camera system at the Ski-Hi facility.
- IT upgraded the central backup software used by the City of Monte Vista to secure backups of vital financial and technical information.
- IT assessed the camera system at the SkatePark and determined that the wireless antenna placement and power issues with one camera were the source of the main issues with the system. Lowell from Public Works assisted by redirecting the cameras and checking camera connections at the top of the poles.
- IT worked with the Police Department and CBI to change group Terminal IDs into

individual TIDs to allow for direct messaging between CSP and Police Officers.

- IT replaced a CAT phone in Public Works that was no longer operating. The phone was replaced from the stock owned by the City of Alamosa at no charge.
- Patched all City owned computers to the latest patch and vulnerability fixes from Microsoft. This monthly patching helps protect our computers from malicious software, resolve general windows issues/bugs, and provide access to new windows features.

Monthly Overview – In June, we kicked off our Summer Reading Program 2019! We are off to a fantastic start. So far the performers and presenters have been a hit with young and adult patrons alike, and we have had huge, happy crowds! Storytime started back up again, as well. It's been a special start to summer at the library!

Storytime - Summer Storytime started back up this month after a few weeks off to get Summer Reading off the ground. We are offering one storytime session a week for children of all ages and stages. Attendance has been good, and I enjoy the mixed-age group!

Total Children's Services Visits for April: **842**

SLV Playdates Baby Time – The Baby Time group has dwindled again. I did not see any participants all month. I have reached out to Jessica Espinoza, their most recent organizer, via email, but have not heard back yet. Perhaps they discussed taking a summer break while people went out of town. I will report back when I hear from Jessica.

Storybox Delivery - June marked our first delivery to the Parents as Teachers group through the SLV Early Childhood Council. The books went with the Parent Educators as a resource in their one-on-one work with families, and Azeneth reports that the program worked well for their purposes! Last month, we were also able to order some replacements for old and worn books included in the boxes using a CSA grant. All of the titles have arrived and have been accounted for, and in July we will send them to Rose for cataloging. Jaymie Coffman (library assistant) has been helping me with this project.

Planting Seeds – We have 114 registered participants in our program, signing up five more readers

this month! Participants are enjoying the new titles that we have added to the prize box, thanks to some funds allocated from the CSA grant.

Parents as Teachers Family Connections Event – Parents as Teachers provides in-home support from Parent Educators through the SLV Early Childhood Council (ECC SLV). The Parents as Teachers group reached out to me regarding one of their monthly Family Connections nights. They asked if we could host a literacy-based family night here at the library, and of course we said, "Of course!" We had a nice turnout of about ten families, some of whom were new to library events. I stuck to the Summer Reading space theme, and came up with activities that covered all five early literacy practices: talk, sing, read, write, and play. We had a fantastic time, and I hope to see some of these new faces as "regulars" in the months and years ahead.

Summer Reading – 185 registered readers! It was my first year planning the Summer Reading Program (SRP) top to bottom, and I'm really proud of how the first month turned out! I had lots of Kick-Off Event brainstorming help from Cathy, and my teen volunteers have been awesome! After last year's SRP trial by fire, I feel that this summer is rolling along quite smoothly. Knowing what to expect really helped!

- **Kick-Off Event** – The weather was a bit gray for our Kick-Off Event, but we managed to make it work! We set up activities in the Children's section of the library as well as outdoors. We ran heavy on the "space" aspect of the "A Universe of Stories" theme, with a rocket toss game, a "space walk" path, projects for older kids on orbital distances from the Sun, and a Pinwheel Galaxy pinwheel project! We even had galaxy slime for patrons to experience and take home. Our plan to paper mache a balloon to represent each planet was difficult in the wind, but a few young patrons braved the wind and glue combo! The biggest goal was to get everyone registered and set up with their Reading Logs, folders, and Read for Beads star/moon chain. We were prepared with plenty of folders, logs, and supplies! The volunteers were friendly, helpful, and available. I introduced something new this year that we're calling Our Respectful

Audience Oath, and it went over with cheers! It was a positive start to an awesome summer of reading!

- **Stories by Julie** – In our second week of SRP, former SLV resident and professional storyteller Julie Moss told folk tales with other-worldly connections! She captivated the crowd by painting images in their imaginations. The audience could not have been more respectful, and the Read for Beads incentive program seemed as popular as in years past. I was pleased!
- **Science Matters** – The Science Matters team is based in Colorado Springs. Their science educator Charity came down to present for us last year, and we were excited to welcome her back! She was prepared with interesting facts on astronauts and brought hands-on experiences meant to replicate some of the difficulties of working in space. She also demonstrated how rockets achieve lift-off (on a smaller scale, of course) and wowed the crowd with science.
- **Mr. E & Kyle Groves' Theater of Mystery** – Father and son magician duo Mr. E and Kyle arrived with magic, comedy, and more space facts! I loved that they also tied in a little library appreciation by saying that they learned about space from books in the library. They even learned about magic from books! The pair was charming and fun, and of course the children loved being called on to assist with the magic!

A Thank You – I just have to include this email that I received from a parent/patron this month who was discovering just how many early literacy programs were available here at APL. It made me feel spectacular, reaffirmed that what we provide is important, and I hope it makes you feel like you are part of something wonderful for this community, too! Thank you for the opportunity to provide this kind of programming for the families of the SLV. Apparently, they appreciate it.

Hi Holly,

Adalee is four-years-old. Ever since we "discovered" the library earlier this month she has been thrilled. As a parent of a little girl who loves to read, I want to thank you for the awesome programs that you have available at the library. She loves going and checking out books, reading for beads, and now keeping track of what we read.

Thanks,

Brettli Teem

ALAMOSA CITY COUNCIL COUNCIL COMMUNICATION

Subject/Title:

Resolution No. 12-2019 substantial completeness of petition to annex Comfort Inn.

Recommended Action:

Adopt Resolution No. 12-2019 finding the petition for annexation of the Comfort Inn to be in substantial compliance with C.R.S. § 12-31-107.

Background:

Skyline Hospitality, Inc., owners of the Comfort Inn, have filed a petition for annexation of the 3.8 acre parcel of land on which the hotel sits. The Petition was filed with the City in December of 2018, thereby meeting the six month requirement found in C.R.S. § 31-12-107 (1)(e). The petitioners then requested that the City hold off on acting on the petition until they subdivided the property that is the subject of the Petition. They have done that, and have now asked the City to move forward with annexation.

City Council is required under the *Municipal Annexation Act of 1965*, as amended, to determine whether the petition is in substantial compliance with C.R.S. Section 31-12-107 (1). That section sets forth certain requirements for what must be in a petition. The petition (copy attached) and accompanying annexation plat (copy attached) have been reviewed by staff, and it is staff's conclusion that they meet the requirements of Section 31-12-107.

The council's role in considering the resolution finding substantial compliance is essentially ministerial. The statute provides that "If the petition is found to be in substantial compliance. . . the procedure outlined in sections 31-12-108 to 31-12-110 shall then be followed. If it is not in substantial compliance, no further action shall be taken." A copy of section 31-12-107 is attached for your ease of reference in considering substantial compliance. As noted above, staff has determined that the application is in substantial compliance with the statute.

This Resolution, if adopted, only begins the process. There follows a public hearing on the eligibility of the property to be annexed (the date for which is set by this resolution), and then consideration of the annexation and the conditions under which it will occur, or if it will occur at all, which are in the discretion of Council. Staff has tentatively scheduled a first reading for the annexation ordinance on August 7, and a final reading on August 21, immediately following the eligibility hearing.

Issue Before the Council:

Does Council find that the annexation petition is in substantial compliance with the requirements of C.R.S. Section 31-12-107 (1).

Alternatives:

- 1) Find that the petition is in substantial compliance and adopt Resolution No. 12-2019.
- 2) Find that the petition is not in substantial compliance, and terminate all further proceedings.

Fiscal Impact:

None. This is a purely ministerial action.

Legal Opinion:

The City Attorney has reviewed the petition, and believes it to be in substantial compliance.

Conclusion:

The resolution finding substantial compliance is the first step in the annexation process. There is no scope, at this point in the proceedings, for Council to exercise discretion in whether or not to annex the property. That decision point comes later in the process in consideration of an annexation agreement and annexation ordinance.

(II) A map showing the boundary of the area proposed to be annexed;

All petitions which substantially comply with the requirements set forth in paragraphs (b) to (d) of this subsection (1) shall be deemed sufficient. No person signing a petition for annexation shall be permitted to withdraw his signature from the petition after the petition has been filed with the clerk, except as such right of withdrawal is otherwise set forth in the petition.

(f) The clerk shall refer the petition to the governing body as a communication. The governing body, without undue delay, shall then take appropriate steps to determine if the petition so filed is substantially in compliance with this subsection (1).

(g) If the petition is found to be in substantial compliance with this subsection (1), the procedure outlined in sections 31-12-108 to 31-12-110 shall then be followed. If it is not in substantial compliance, no further action shall be taken.

 - (b) The petition shall be filed with the clerk.
 - (c) The petition for annexation election shall comply with the provisions of paragraph (c) of subsection (1) of this section; except that:
 - (I) Rather than an allegation of any certain percentage of land owned, it shall contain an allegation that the signers of the petition are qualified electors resident in and landowners of the area proposed to be annexed; and
 - (II) The petition shall request the annexing municipality to commence proceedings for the holding of an annexation election in accordance with section 30 (1)(a) of article II of the state constitution.
 - (d) The requirements and procedures provided for in paragraphs (e) and (f) of subsection (1) of this section shall be met and followed in a proceeding under this subsection (2).
 - (e) If the petition is found to be in substantial compliance with this subsection (2), the procedure outlined in sections 31-12-108 to 31-12-110 shall then be followed, subject thereafter to an annexation election to be held in accordance with section 31-12-112. If the petition for an annexation election is not found to be in substantial compliance, no further action shall be taken; except that the governing body shall make such determination by resolution.
- (3) Procedures alternative: The procedures set forth in subsections (1) and (2) of this section are alternative to each other and to any procedure set forth in section 31-12-106 ; except that a petition for annexation election filed pursuant to subsection (2) of this section shall take precedence over an annexation petition involving the same territory and filed pursuant to subsection (1) of this section if such petition for annexation election is filed at least ten days prior to the hearing date set for the annexation petition filed pursuant to subsection (1) of this section.
- (4) Additional terms and conditions on the annexation: Additional terms and conditions may

be imposed by the governing body in accordance with section 31-12-112.

- (5) If a petition is filed pursuant to subsection (1) or (2) of this section and the territory sought to be annexed meets the specifications of section 31-12-106(1), the governing body of the municipality with which the petition is filed shall thereupon initiate annexation proceedings pursuant to the appropriate provisions of section 31-12-106(1). In the event that any governing body fails to initiate such annexation proceedings within a period of one year from the time that such petition is filed, annexation may be effected by an action in the nature of mandamus to the district court of the county where the land to be annexed is located, and the petitioner's court costs and attorney fees incident to such action shall be borne by the municipality.
- (6) No proceedings for annexation to a municipality may be initiated in any area which is the same or substantially the same area in which an election for annexation to the same municipality has been held within the preceding twelve months.
- (7) For the purpose of determining the compliance with the petition requirements in this section, a signature by any landowner shall be sufficient so long as any other owner in fee of an undivided interest in the same area of land does not object in writing to the governing body of the annexing municipality within fourteen days after the filing of the petition for annexation or annexation election. The entire area of the land signed for shall be computed as petitioning for annexation if such signing landowner has become liable for taxes in the last preceding calendar year or is exempt by law from payment of taxes. One who is purchasing land under a written contract duly recorded shall be deemed the owner of the land which is subject to the contract if he has paid the taxes thereon for the next preceding tax year. The signers for an area owned by a corporation, whether profit or nonprofit, shall be the same persons as those authorized to convey land for such corporation.
- (8) No power of attorney providing the consent of a landowner to be annexed by a municipality pursuant to this section shall be valid for a term of more than five years, and no such power of attorney executed before May 27, 1997, shall be valid for a term of more than five years after May 27, 1997.

ANNOTATION

I. GENERAL CONSIDERATION.

Law reviews. For article, "One Year Review of Constitutional Law", see 40 Den. L. Ctr. J. 134 (1963). For article, "Annexation: Today's Gamble for Tomorrow's Gain -- Parts I and II", see 17 Colo. Law. 603 (1988). For article, "ADR Techniques in Municipal Annexations", see 18 Colo. Law. 901 (1989).

Annotator's note. Since § 31-12-107 is similar to former § 31-8-107 prior to the 1975 repeal and reenactment of this title, and laws antecedent thereto, relevant cases construing those provisions have been included in the annotations to this section.

The 1965 annexation act provided for alternate methods of annexing land. Breternitz v. City of Arvada, 174 Colo. 56, 482 P.2d 955 (1971).

Procedures detailed. This section detailed procedures relating to petitions by those owners residing within or only owning land within the area to be annexed. Tanner v. City of Boulder, 151 Colo. 283, 377 P.2d 945 (1962).

Differentiation of petitioner qualifications. Except for differences regarding the qualifications of the petitioners, the procedures under this section are substantially the same. City of Aspen v. Howell, 170 Colo. 82, 459 P.2d 764 (1969).

The article contains no express prohibition against any person becoming the circulator of a petition. City of Englewood v. Daily, 158 Colo. 356, 407 P.2d 325 (1965).

This section requires an affidavit that each signature thereon is the signature of the person whose name it purports to be. City of Englewood v. Daily, 158 Colo. 356, 407 P.2d 325 (1965).

The streets and public ways in the area are not to be included in calculating the area to be annexed. City & County of Denver v. Holmes, 156 Colo. 586, 400 P.2d 901 (1965).

Applied in Bd. of County Comm'rs v. City & County of Denver, 190 Colo. 8, 543 P.2d 521 (1975); Slack v. City of Colo. Springs, 655 P.2d 376 (Colo. 1982).

II. PETITION FOR ANNEXATION.

Legislative intent in subsection (1)(g). The general assembly clearly intended to distinguish between petitions for annexation signed by 100 percent of the owners of the land proposed for annexation and petitions signed by a lesser number by enacting this section. Bd. of County Comm'rs v. City & County of Denver, 194 Colo. 252, 571 P.2d 1094 (1977).

The legislative limitation applies to the entire part, and not merely to this section. Bd. of County Comm'rs v. City &

County of Denver, 194 Colo. 252, 571 P.2d 1094 (1977).

Initiation of proceedings by petition. This section provides that annexation proceedings of eligible territory shall be initiated by written petition presented to the legislative body of the city, city and county, or incorporated town to which it is proposed to annex such territory. *People ex rel. City & County of Denver v. County Court*, 137 Colo. 436, 326 P.2d 372 (1958); *City of Englewood v. Daily*, 158 Colo. 356, 407 P.2d 325 (1965).

Land ownership and tax liability proponent and opponent prerequisites. The requirements of ownership in fee and the liability for taxes were both prerequisites for participation as a proponent of the annexation, and the same requirements confronted an opponent of the annexation. *City & County of Denver v. Holmes*, 156 Colo. 586, 400 P.2d 901 (1965).

Owners of land in joint tenancy are entitled to sign and to be counted with the resident landowners, because each joint tenant owns an interest and is in his own right a landowner. *Rice v. City of Englewood*, 147 Colo. 33, 362 P.2d 557 (1961).

Petition signed by executor. The petition for annexation was signed by the "owner" of 100 percent of the territory annexed where it was signed by an executor to whom was given full power to manage and sell estate property as well as authority to do any act or carry out any agreement respecting the property even though title was not in him. *Bd. of County Comm'rs v. City & County of Denver*, 193 Colo. 211, 565 P.2d 212 (1977).

Where an annexation petition was signed by a tenant-in-common holding an undivided interest in the land annexed, the requirements of subsection (1)(g) were met and no notice, hearing, or election was necessary. *Bd. of County Comm'rs v. City & County of Denver*, 193 Colo. 325, 566 P.2d 335 (1977).

Where signers of the annexation petition owned well over 50% of the land proposed to be annexed, but at the same time five of the nine resident signers were favorable to the annexation, the fact that these resident owners represented a percentage of property less than 50% is inconsequential since much more than 50% of the area was represented by resident and nonresident owners. *Rice v. City of Englewood*, 147 Colo. 33, 362 P.2d 557 (1961).

Notice and hearing are not required when 100% of the landowners sign the annexation petition. *Bd. of County Comm'rs v. City & County of Denver*, 194 Colo. 252, 571 P.2d 1094 (1977).

Streets and roadways are excluded when considering whether all of the landowners in an area proposed to be annexed have signed an annexation petition, and, if all other owners are signatories, there are no notice, hearing, or election requirements. *Bd. of County Comm'rs v. City & County of Denver*, 40 Colo. App. 281, 573 P.2d 568 (1977).

Immaterial who obtains consent. With regard to petitions for annexation, so long as the requisite number of landowners freely consent to the annexation it is wholly immaterial who obtains that consent. *City of Englewood v. Daily*, 158 Colo. 356, 407 P.2d 325 (1965).

Such as city officials. Nowhere does this article prohibit, either expressly or by necessary implication, the annexing

city's officials from participating in the circulation of annexation petitions. *City of Englewood v. Daily*, 158 Colo. 356, 407 P.2d 325 (1965).

The fact that city councilmen must "find" that the form of the petition meets the statutory requirements when it is presented to the annexing city's council does not disqualify the councilmen from acting as circulators of the petitions. *City of Englewood v. Daily*, 158 Colo. 356, 407 P.2d 325 (1965).

"Finding" is administrative conclusion. The "finding" of compliance with the section, as a preliminary step in annexation proceedings, is no more than an administrative or ministerial conclusion of fact upon which the legislative power to act is dependent, and this "finding" would necessarily be made by the legislative body whether this section required it or not. *City of Englewood v. Daily*, 158 Colo. 356, 407 P.2d 325 (1965).

An obvious typographical error in the signature page of an annexation petition considered in context was insubstantial and did not invalidate the petition. *Bd. of County Comm'rs v. City & County of Denver*, 193 Colo. 325, 566 P.2d 335 (1977).

An annexation petition was sufficient even though the signature pages failed to set out the date of each signature, where the dates on the verifications accompanying the signatures showed that signing took place prior to filing the documents, and there was no allegation that prejudice resulted or that any of the signatures were stale. *Bd. of County Comm'rs v. City & County of Denver*, 193 Colo. 325, 566 P.2d 335 (1977).

There is substantial compliance with the requirement of subsection (1)(d) that copies of the annexation map accompany the petition where the map is available to the city council whether or not it is physically attached to the petition. *Bd. of County Comm'rs v. City & County of Denver*, 193 Colo. 325, 566 P.2d 335 (1977).

Where, in its resolution, the city council recited that the annexation petition was accompanied by a map and school board resolution, and these documents were available on file with the Denver clerk and recorder for the city council's inspection and consideration prior to passage of the annexation ordinance, there was substantial compliance with the requirements that the documents accompany the petition. *Bd. of County Comm'rs v. City & County of Denver*, 193 Colo. 325, 566 P.2d 335 (1977).

When no substantial compliance with subsection (1)(g). The standard of substantial compliance under subsection (1)(g) is not met where the ownership of the land to be annexed does not clearly appear. *Bd. of County Comm'rs v. City & County of Denver*, 193 Colo. 321, 566 P.2d 340 (1977).

The standard of substantial compliance under subsection (1)(g) is not met where the description of the area to be annexed is so confused and contradictory that the area to be annexed cannot be determined from the petition and its attachments. *Bd. of County Comm'rs v. City & County of Denver*, 193 Colo. 321, 566 P.2d 340 (1977).

Where city owned 50-foot strip in land to be annexed. Since the city council must decide whether annexation will be approved under subsection (1)(g) where owners of 100% of the land to be annexed had signed the petition, no purpose would be served by requiring the city, as owner of a 50-foot contiguous strip in the land to be annexed, to

sign a petition addressed to itself. *Bd. of County Comm'rs v. City & County of Denver*, 38 Colo. App. 171, 556 P.2d 486 (1976), *aff'd*, 194 Colo. 252, 571 P.2d 1094 (1977).

III. PETITION FOR ANNEXATION ELECTION.

This section provides for the electorate to have a veto power over annexation when it commands that an election petition take precedence over any petition filed with city council by petitioners who own more than 50% of the land. *Breternitz v. City of Arvada*, 174 Colo. 56, 482 P.2d 955 (1971).

Compliance with subsection (1)(c)(III) not required. When a petition for annexation election is filed pursuant to subsection (2), the signers, if they comprise the requisite number or percentage and are qualified electors and resident landowners in the territory, need not also comply with subsection (1)(c)(II). *Breternitz v. City of Arvada*, 174 Colo. 56, 482 P.2d 955 (1971).

The general assembly intended that subsection (1)(c)(III) of this section requiring signatures of more than 50% of the landowners be excepted, i.e., "taken out" and excluded from consideration when the requisite number of petitioners sought annexation by the election alternative. *Breternitz v. City of Arvada*, 174 Colo. 56, 482 P.2d 955 (1971).

If the provision of subsection (2) that either 75 electors or 10%, whichever is the lesser, can petition for an election in which the majority vote will control, it simply does not make sense to add the additional requirement that these same petitioners be owners of more than 50% of the land. *Breternitz v. City of Arvada*, 174 Colo. 56, 482 P.2d 955 (1971).

Corporate or nonresident owners have no voice in election. Subsection (2), if it is to be given life and meaning, was intended to provide for a voice in the annexation process to be given to people living in the area as opposed to corporate or nonresident owners of larger segments of the land. *Breternitz v. City of Arvada*, 174 Colo. 56, 482 P.2d 955 (1971).

Except corporate owner may petition. By giving full force and effect to the subsection (2) alternative, one corporate owner, or two, or half a dozen owners of more than 50% of the land cannot impose their annexation whims on other resident-electors who own the balance or less than 50% of the territory, but the latter may nevertheless petition for an election if 75 electors or 10% wish to put the matter to a vote. *Breternitz v. City of Arvada*, 174 Colo. 56, 482 P.2d 955 (1971).

Suspension of actions on annexation petition. The provision that a petition for annexation election shall take precedence over an annexation petition does not require that, when the election petition was filed, all actions under the annexation petition should have been abandoned, and a new procedure should have been initiated under subsection (2). *City of Aspen v. Howell*, 170 Colo. 82, 459 P.2d 764 (1969).

Findings as to qualifications of signers proper. Where there was testimony that the signers of the petition were registered voters, that each signer stated under oath that he was a landowner, and that an examination of the county records disclosed them all to be landowners, and the petition recited that the signers were qualified electors, residents in and landowners of the area proposed to be annexed, and there is nothing in the record to indicate that less than 75

of the signers were not qualified to sign, the finding of the city council as to the qualifications of the signers is proper.
Breternitz v. City of Arvada, 174 Colo. 56, 482 P.2d 955 (1971).
