The application for this new Hotel & Restaurant is for Alamosa Thai House d/b/a Thai House. The owners on this application are Elaine Rios and Vicente Rios. The registered manager on the application is Elaine Rios.

Counselor Schwiesow gave an overview of the hearing procedure, and the licensee's obligation to affirmatively prove the needs and desires of the neighborhood and the desires of the adult inhabitants of the neighborhood. The city's presumptive neighborhood is the city limits plus a one-mile radius.

Counselor Schwiesow opened the public hearing at 9:54 p.m. and turned the hearing over to the applicant.

Vicente Rios provided Council with the following information:

- He is here on behalf of the Alamosa Thai House to apply for a liquor license to be able to serve liquor with his meals.
- He has done all the requirements of the application and also has some sort of petition signed by petitioners that would like them to serve liquor with their meals. It's a good

thing for him and will help boost his revenue up a little bit.

- The restaurant applying for the license is Alamosa Thai House at 525 Main Street.
- He is the owner of the LLC.

Counselor Schwiesow asked if the applicant has a copy of the notice that was posted. He did and that was marked as Exhibit A. And the petition is being marked as Exhibit B.

Counselor Schwiesow asked the City Clerk, Holly Martinez, to confirm that the property was posted with the notice and the legal notice was published as required. Ms. Martinez confirmed that they were. The property was posted on November 15, 2021 and the legal notice was published on December 4, 2021.

The hearing was turned over to Council to ask any questions of the applicant.

Councilor Daniel asked the applicant how he planned on training his staff.

The applicant stated that they will be going to liquor training classes that were offered through the health department. He will also train his staff himself as he's been in the business close to 40 years.

Councilor Daniel also asked the applicant if he's ever had any findings or violations for any businesses with liquor licenses he's had in the past. The applicant stated that he has not.

Councilor Griego stated that there has been a license in this building before so this is not a new license since one had existed in the building at one point before.

The applicant stated that there was Mrs. Rios in the building there before as well that also had a liquor license.

Counselor Schwiesow stated that there was about 9 signatures on the petition and asked if he's had people who have come in to the restaurant that indicated that they'd like to have alcohol be available with their meal as well. The applicant indicated that he has had that and has also had people step out of the restaurant because they didn't serve alcohol as well.

The applicant also stated that he feels about 50% of people have indicated they'd like to have alcohol available as alcohol is common to serve with Thai food.

Councilor Hensley asked about the petitions and reasoning why there were few signatures on the petitions. The applicant stated it was brought to his attention and that he had forgotten about having one and had it done today.

Councilor Woodward stated that as a fellow restaurant owner, he realizes how important it is to be able to serve alcohol in your restaurant and welcomed them and wished them the best of luck.

Counselor Schwiesow opened the hearing to the public at 9:59 p.m. for public comment and asked for those wishing to speak in favor of this application.

There being no one wishing to speak in person or via Zoom, Counselor Schwiesow then opened to public hearing to those wishing to speak against this application in person or via Zoom.

There being no one wishing to speak, the hearing closed at 10:02 p.m. and the hearing was turned back over to Council.

Councilor Daniel stated that she is struggling and is not convinced that the needs and desires of the community were presented tonight.

Councilor Griego stated he's had an opportunity to know the Rios' and how proper they've run their businesses. He also stated that it's important to help a business person with another tool for them if they can.

Councilor Griego moved, seconded by Councilor Woodward to approve the liquor license for the Thai House at 525 Main Street and to direct the city attorney to provide written findings at the next meeting consistent with this decision. The motion carried 5 to 1 with Councilor Daniel casting the no vote.

COUNCIL COMMENT

Councilor Vigil wished everyone a Merry Christmas and Happy Holiday and thanked staff and council for a great year.

Councilor Daniel stated that it's important that we remember how we impact people with their positions and to remember that there are people that we don't know what they're going through; and that we continue to provide support. And just remember how things that they do in their positions, they reflect and provide support to one another.

Councilor Griego echoed Councilor Vigil's comments about the holidays. He also mentioned the strong winds and asked what can be done about the clean-up of that.

Councilor Hensley congratulated the graduates of Adams State University that will be graduating this Saturday.

Cattails Golf Course November 2021 Report

Cattails Updates

As of December 1st the course is closed for the season. We had mid 50 temperatures all through the month of November which kept the course open and busy. These temps are great for golf but bad for the grass this time of year. Hopefully we get some snow cover to keep the turf in great shape for the spring.

2021 has been a great year for Cattails. We had over \$65,000 in new memberships! Also during our early pay membership sale through November we sold over \$38,000 in pre-sale memberships for the 2022 season.

Our revenue has been incredible this year. I feel we have a lot of momentum and are looking to keep it going in the 2022 season. Our revenue totals as of 12/6 are below.

Current Maintenance Work

We have charged the main line on the front 9 irrigation system so that we can utilize the frost free hydrants to water the greens.

We will also start trucking water by tank to the back 9 greens. The back 9 irrigation systems don't have the ability to water once temps drop below freezing.

We are working on installing annual tune up kits on all 38 golf carts.

Britt and Ted are attending the Rocky Mountain Regional Turf grass Conference in Denver. They will stay up to date with current technology and practices for turf care.

COUNCIL COMMUNICATION

DATE December 8, 2021	AGENDA NO.C. 8. a	SUBJECT: IT Director Monthly Report for November 2021
Department Head: 		
City Manager:		
PRESENTED BY: James A. Belknap		

Below is a statement regarding major issues covered by the City IT Department:

November 2021 Report

- Installed and wired an additional security camera in city hall that covers a previously uncovered area.
- Implemented auto restart policy on camera servers to provide greater overall uptime to video streaming services. Video recording has not been affected by previous outages however, some users were not able to open streams or browse previous recordings.
- Presented an updated intergovernmental agreement between Monte Vista and Alamosa with updated language to both councils.
- Posted an opening for an additional IT technician. This position will primarily be stationed in Monte Vista. The funding for this position is based upon the approval for the City of Monte Vista / City of Alamosa intergovernmental agreement.
- Met with Alan Wehe of Jade Communications
- Attended multiple meetings with Angie Nixon of Paradigm Connectivity to discuss

the Alamosa Library Website Update and provided further information about information priority and design.

- A separate meeting was conducted to discuss the 'wireframe' design of the updated City of Alamosa website.
- Met with 1903 Solutions to review security and event information management systems (SIEM)
- A later meeting was held with Adlumen, an SIEM provider to discuss a trial of their software and technology.
- Ordered additional Google Accounts to allow for both employee growth and provide emails to some positions that have previously not been provided access. By providing a combination of email accounts and network accounts, users are less likely to share computer access privileges (and passwords) and also be provided electronic pay stubs available via City email.
- Met with HR to discuss on-boarding and off-boarding policy regarding physical access control and employee credentialing.
- Attended an SLV Regional Broadband Collaborative meeting where Action 22 - the recently hired community outreach managers - were introduced. Overall priority and direction was provided by the board.
- Updated the RecPro software used by Parks and Rec staff for scheduling, payment processing, and facilities management.
- Patched all City owned computers to the latest patch and vulnerability fixes from Microsoft. This monthly patching helps protect our computers from malicious software, resolve general windows issues/bugs, and provide access to new windows features.

In Monte Vista, we performed the following items:

- The City of Monte Vista uses Veeam to manage and capture backups. The configuration of the Veeam software was updated to match the recent changes to server infrastructure. Other Veeam maintenance conducted includes:
 - Removed deprecated (old) backup jobs
 - Added linux based immutable backup storage - this prevents compromised data due to ransomware.
 - Tested the completion of all backup jobs
- Fixed a minor configuration issue with the west and east bound highway cameras.
- Continued the rollout of cell phone upgrades to PD and PW workers.
- Moved a WiFi access point in the police station to provide better coverage to wireless devices.
- Tested and verified the electric generator used as a backup generator for both City Hall and the Police Department.
- Update the webpage for the Ski Hi complex on the city website.
- Negotiated the replacement of both the City Hall copier and the Police Department copier ahead of the end of the lease. Reutilized the City Hall copier for SkiHi.
- Attempted to improve the setup of the Spillman records server. Unfortunately due to the deprecated status of both the operating system and software, only limited support can be given. IT will continue to work with the Police Department to phase out the system as soon as possible.
- Completed the annual replacement of computers per the 5 year replacement schedule.
- Patched all City owned computers to the latest patch and vulnerability fixes from Microsoft. This monthly patching helps protect our computers from malicious software, resolve general windows issues/bugs, and provide access to new windows features.

Recommended Action:

Appoint Mr. Martinez to the Main Street Advisory Committee as the Hospitality Industry representative.

The Main Street Advisory Committee has one vacancy: Hospitality Industry representative with a term ending 6/1/2022.

Issue Before the Council:

Does Council wish to make this appointment?

Alternatives:

1. Make the appointment
2. Do not make the appointment and continue recruitment.

Fiscal Impact:

N/A

Legal Opinion:

The City Attorney will be present at the meeting for questions or comments.

Conclusion:

This action helps to fill the vacancy on the Main Street Advisory Committee and further Council's goal of community through citizen involvement.

ALAMOSA CITY COUNCIL COUNCIL COMMUNICATION

Subject/Title:

Motion authorizing an additional \$241,075 for the Victoria Street Drainage Infrastructure project.

Recommended Action:

Staff recommends that Council authorize an additional \$241,075 for the completion of the storm water collection project.

Background:

Victoria Street and the surrounding area have historically flooded during a heavy rain event. This is largely due to the existing undersized storm water infrastructure. Victoria Street is the collection point for a large area and much of it is impermeable. In the spring of 2019, Reynolds Engineering was hired to assess the area and provide options that would resolve this issue.

In July of 2019, Reynolds Engineering provided 4 options to consider all of which would alleviate the buildup of storm water. Each option included a summary of the work and a cost estimate. Due to the complicated nature of the project, Options 1, 2, and 3 were estimated around \$1,350,000 while Option 4 was estimated at \$740,000. However, Option 4 required the City to obtain land for a detention pond. Staff felt that option 4 was the best solution so long as we were successful in purchasing the land needed for the detention pond.

On July 17, 2019 in an executive session, staff presented all 4 options to Council along with the recommendation to move forward with Option 4 and requested authorization to pursue the vacant land needed for the detention pond. Council approved the request along with the budget, and we were successful in purchasing the vacant lot adjacent to the college Heights Baptist Church in February of 2020.

Once the property was secured, Reynolds Engineering had clear direction on where the storm water would be stored and could begin the design of Victoria Storm Drainage project. Reynolds submitted the completed design and construction documents for approval in the spring of 2021. With the expectations of the work being completed in the summer of 2022, the City went through a formal bid process receiving only one qualified bid from RMS Utilities for the amount of \$774,044.75. The RMS bid, plus the other expenses already incurred to complete the project are listed below. The total project budget is now \$1,064,075, which remains below the other options with 2019 cost projections.

RMS Utilities	\$774,044
Property purchase	\$107,000
Lift Station equipment	\$123,031
Detention blocks	\$ 20,000
Fencing	\$ 25,000
Contingency	\$ 15,000

Until recently, the original approved budget would have been adequate for this project. However, the volatility of the construction labor and material market has led to substantial cost increases. An example on how much the market has changed is a contractor could purchase and install a 15" storm water pipe for \$27 per linear foot in 2019. Today, that cost is about \$70 per linear foot – a 160% increase. Staff does not believe that rebidding the project will result in a lower price. Most contractors are currently booked and are not taking on additional large-scale projects and the higher material costs would be consistent for them as well.

Issue Before the Council:

Does Council wish to authorize an additional \$241,075 to the budget to complete the Victoria St drainage infrastructure?

Alternatives:

- 1) Approve the requested increase to the budget.
- 2) Re-bid the project in hope of additional bidders with lower prices.
- 3) Decline to approve the request and provide staff with further direction.

Fiscal Impact:

The additional cost will be paid out of the Enterprise Fund or offset with ARPA funds depending on the inflation impact on other planned projects and the 10-year projected fund balance. If approved, the amount will be included in the first budget amendment for the 2022 annual budget.

Legal Opinion:

City Attorney will be available for questions.

Conclusion:

A solution to the drainage problem on Victoria and neighboring streets is a high priority. This needs to be in place prior to the rebuilding of Victoria Street in 2023. The budget increase is necessary to complete the project and move forward.

ALAMOSA CITY COUNCIL COUNCIL COMMUNICATION

Subject/Title:

Motion authorizing the reallocation of \$70,000 and addition of \$10,000 from the Enterprise Fund balance for the emergency replacement of a sanitary sewer line east of the Century Mobile Home Park and City Manager's report on emergency expenditure pursuant to Section 2-182(b)(3) of the *Code of Ordinances of the City of Alamosa*

Recommended Action:

Staff recommends that Council approve \$10,000 from the Enterprise Fund and reallocate \$70,000 previously earmarked for the replacement of the sanitary sewer line on 14th Street, which was not needed, and accept this agenda item as the City Manager's written communication on an emergency expenditure pursuant to Section 2-182(b)(3).

Background:

During the last week of November, the Water Division was making its rounds cleaning manholes and discovered a section of collapsed sanitary sewer line east of the Century Mobile Home Park. Assessing the old cement pipe revealed that pipe walls were very thin and that making the necessary repairs would be difficult. Knowing that the wait list for pipe is currently quite backlogged, staff ordered replacement pipe and planned on patching the issue until it could be fully replaced next summer.

Upon returning to the site the next day, two additional sections of the pipe had collapsed causing great concern and necessitating the immediate replacement of the entire pipe. Fortunately, the pipe supplier was able to secure enough material to replace the entire 1300' section of pipe and will deliver that material the week of December 13th. The needed pipe was only available because the project it had been ordered for by another customer was cancelled. Due to the general unavailability of pipe and the emergency need to acquire pipe for the collapsed sanitary sewer line, the City Manager authorized a no-bid purchase of the pipe pursuant to Section 2-182(b) of the *Code of Ordinances*. The price is commercially reasonable.

The \$70,000 from the 14th Street projects were funds that were not used and were going to be returned to the Enterprise Fund. Prior to the asphalt overlay of the road this summer, the sanitary line was reassessed and determined that replacement of this line was premature and would not need replaced for many more years to come. An additional \$10,000 is anticipated to be needed to complete this emergency repair.

Issue Before the Council:

Does Council wish to authorize the \$10,000 needed to replace the failed sanitary sewer line and reallocate the unused \$70,000 from the 14th Street project?

Alternatives:

- 1) Approve the requested increase to the budget and reallocation of funds.
- 2) Decline to approve the request and provide staff with further direction. The pipe has already been purchased, so if not approved under this proposal, another source of funds will need to be identified.

Fiscal Impact:

The additional \$10,000 will be paid out of the Enterprise Fund and the \$70,000 was budgeted but unused.

Legal Opinion:

City Attorney will be available for questions.

Conclusion:

The replacement of this sanitary sewer line should be considered the highest of priorities and replaced as soon as possible. A complete failure of this line will impact all residential and commercial users south of 14th Street. Accordingly, material for the repair was purchased on an emergency basis. This motion authorizes the necessary fund reallocation to accommodate that purchase.

The Executive Director of the Colorado Department of Revenue is the State Licensing Authority, and oversees the Colorado Liquor Enforcement Division as his or her agents, clerks, and employees. The information and documentation obtained pursuant to this Waiver may be used in connection with the Applicant/Licensee's liquor license application and ongoing licensure by the state and local licensing authorities. The Colorado Liquor Code, section 44-3-101, et seq. ("Liquor Code"), and the Colorado Liquor Rules, 1 CCR 203-2 ("Liquor Rules"), require compliance with certain tax obligations, and set forth the investigative, disciplinary and licensure actions the state and local licensing authorities may take for violations of the Liquor Code and Liquor Rules, including failure to meet tax reporting and payment obligations.

The Waiver is made pursuant to section 39-21-113(4), C.R.S., and any other law, regulation, resolution or ordinance concerning the confidentiality of tax information, or any document, report or return filed in connection with state or local taxes. This Waiver shall be valid until the expiration or revocation of a license, or until both the state and local licensing authorities take final action to approve or deny any application(s) for the renewal of the license, whichever is later. Applicant/Licensee agrees to execute a new waiver for each subsequent licensing period in connection with the renewal of any license, if requested.

By signing below, Applicant/Licensee requests that the Colorado Department of Revenue and any other state or local taxing authority or agency in the possession of tax documents or information, release information and documentation to the Colorado Liquor Enforcement Division, and its duly authorized employees, to act as the Applicant's/Licensee's duly authorized representative under section 39-21-113(4), C.R.S., solely to allow the state and local licensing authorities, and their duly authorized employees, to investigate compliance with the Liquor Code and Liquor Rules. Applicant/Licensee authorizes the state and local licensing authorities, their duly authorized employees, and their legal representatives, to use the information and documentation obtained using this Waiver in any administrative or judicial action regarding the application or license.
